The Excel file consists of six spreadsheets. The first spreadsheet contains instructions for entering data into the data collection templates. Please review the "Instructions" worksheet carefully, as it provides guidance for entering required data into the data collection templates.

The second spreadsheet, labeled "Enter Regular Days In Session," requires you to enter the number of days your schools were in session with pupils in attendance for the 2004-2005 school year (regular session only).

The third spreadsheet, labeled "Division Codes and Names," will assist you in finding the number and name of the localities in which the foster care children you served are legal residents.

The fourth and fifth spreadsheets, labeled "Regular Foster Care" and "Special Ed Foster Care," respectively, should be used to enter data regarding qualifying foster care children served in your division in fiscal year 2005.

Please note that "Regular Foster Care" and "Special Ed Foster Care" worksheets now include a new data entry column titled "Was this child enrolled in a remedial summer school program during Summer 2005?" You should select "yes" or "no" from the drop down menu to denote whether or not the foster care child was enrolled in a remedial summer school program (Summer 2005 program only). Only select "yes" if the child was enrolled in a remedial summer school program during Summer 2005; **foster care students attending optional summer school programs for course credit or enrichment should not be counted.**

The sixth spreadsheet, labeled "Foster Care Certification," contains the certification form that must be signed by the

division superintendent and returned to the Department of Education in hard copy.

All school divisions must return a completed Excel template for fiscal year 2006, along with a hard copy of the division superintendent's certification, to:
