

Instructions for Accessing the Entitlement Calculation Templates for the Amendments to the 2006-2008 Biennial Budget as Separately Adopted by the Senate and by the House of Delegates on February 8, 2007

Two downloadable Excel files have been created to allow school divisions to calculate their projected state entitlements and required local matches for the Standards of Quality (SOQ), incentive, categorical, and school facilities accounts based on the amended 2006-2008 biennial budgets separately adopted by the Senate and by the House of Delegates on February 8, 2007.

These Excel file templates also allow divisions to change March 31 average daily membership (ADM) projections to test the effect on the projected state entitlements and required local matches. The templates are provided for your use and do not have to be returned to the Department of Education. The Excel files are located on the department's Web site at the following Web address:

<http://www.doe.virginia.gov/VDOE/Finance/Budget/calctools.html>

The Web address noted above brings you to the Budget Office's "Calculation Templates" Web page. To download the Excel files, click on the "Excel Template" option for either the Senate or the House of Delegates' proposed amended budget for the 2006-2008 biennium.

You may also access the template by logging onto the department's Web site at <http://www.doe.virginia.gov>. From this home page, select the drop-down box in the top right hand corner of the page, titled "DOE Offices." From this option, click on "Finance;" click on "Budget Office;" click on "Calculation Templates;" and click on the "Excel Template" option for either the Senate or the House of Delegates' proposed amended budget for the 2006-2008 biennium.

Please follow the steps below to access the Excel file if you use **Internet Explorer** as your Internet browser:

1. RIGHT-CLICK on the "Excel Template" link for the corresponding entitlement sheets.
2. Select "Save Target As" and save the file to your local drive.
3. Once the file is saved, close Internet Explorer and open the file using Excel.

4. A box will appear warning you that the file contains macros. The box will prompt you to disable the macros or to enable the macros. Please note that in order for the template to operate correctly, you must click on the "ENABLE MACROS" button.

If you are prompted with a **Microsoft Visual Basic** error, please see instructions below on adjusting macro security levels in Excel.

Please follow the steps below to access the Excel file if you use **Mozilla Firefox** or **Netscape** as your Internet browser:

1. After you click on the file name on the Web site, you will be prompted to open the file or save it to a drive. You may choose either option.
2. A box will appear warning you that the file contains macros. The box will prompt you to disable the macros or to enable the macros. Please note that in order for the template to operate correctly, you must click on the "ENABLE MACROS" button.

If you are prompted with a **Microsoft Visual Basic** error, please see the instructions below on adjusting macro security levels in Excel.

Please follow the steps below if you are prompted with a **Microsoft Visual Basic** error alerting you to disable macros in Excel:

1. Select the "Tools" menu from the drop-down options at the top of the spreadsheet.
2. Select "Macro;" then select "Security." Set the security level at "Medium." This will give you the option to disable or enable macros.
3. You must exit out of the spreadsheet and reopen the calculation template file for the macro security changes to take effect.
4. When accessing the calculation templates from the Department of Education, you must click on the "ENABLE MACROS" button before using the spreadsheets.

Please note that, beginning with the 2006-2008 biennium, the commonwealth is using a new budgetary structure (i.e., "service areas") for budgeting state Direct Aid to Public Education funds. These new service areas generally correlate with the previously used budget structure; the service area structure

further differentiates the school construction and lottery funds from the Group III - Incentive Accounts, where these funds were previously categorized, into a separate "School Facilities" service area. You may also notice that some Direct Aid accounts have moved from one group to another. Please contact the budget office if you have any questions about the new budget structure.

The Excel file consists of 12 spreadsheets that are described below:

The first spreadsheet, labeled "Instructions," contains instructions for using the Excel template. Please review this spreadsheet carefully, as it provides specific guidance for calculating projected entitlements and required local matches. Once you have finished reading this spreadsheet, click on the button marked "Click here to continue" to proceed to other spreadsheets in the file.

The second spreadsheet, labeled "State & Local Funds Worksheet," contains the spreadsheet that is used to calculate projected state entitlements and required local matches to state funds for fiscal years 2007 and 2008:

1. Select your division using the drop-down box located at the top of the sheet labeled "State & Local Funds Worksheet." A box will appear that notifies you that the file will automatically be saved to the following location on your computer's hard drive:

[C:\DOE_DATA\General Assembly 2007\Proposed Senate Amendments to SB 750.xls](#) (For the Excel file that contains the Senate's proposed amended 2006-2008 budget.)

[C:\DOE_DATA\General Assembly 2007\Proposed House Amendments to HB 1650.xls](#) (For the Excel file that contains the House's proposed amended 2006-2008 budget.)

2. Next, a box will appear that asks you to confirm that you have chosen the correct division. If the division name is correct, click "Yes." If you have selected the wrong division, click "No" and select the correct division using the drop-down box.
3. After you have confirmed your division selection, you will be prompted with a form that provides you with DOE's

current FY 2007 and FY 2008 March 31 ADM projections and you may either select the "Use DOE's Projected ADM" button, or if you want to use your own ADM projections, select the "Use Local Projected ADM" button and follow the instructions as presented. Please note that changing ADM in the calculation template only changes the estimated funding for accounts that are funded on the basis of ADM. Also note that, for each fiscal year, the payment of semi-monthly SOQ entitlements and other accounts paid on the basis of ADM are based only on DOE projections of division March 31 ADM, pending the recalculation of final entitlements based on actual March 31 ADM at the end of each fiscal year.

The third spreadsheet, labeled "Budget Variables," provides an overview of all budget variables used in the calculation of state entitlements and required local matches. Per pupil amounts, fringe benefit rates, enrollment projections for Remedial Summer School and English as a Second Language, compensation supplement equivalency tables, funded salaries, and cost of competing adjustment (COCA) rates are included in this spreadsheet for your information.

The fourth spreadsheet, labeled "Required Local Effort," summarizes the division's projected required local effort for the Standards of Quality programs in fiscal years 2007 and 2008. No data entry is required as this sheet uses the data from the "State and Local Funds Worksheet" to calculate required local effort.

Please note that the hold harmless sales tax payment included in the amended budgets, as well as increases in Enrollment Loss and Supplemental Basic Aid, are treated as a credit that is deducted from each school division's projected required local effort for SOQ programs in fiscal year 2007 only. This credit toward meeting required local effort in fiscal year 2007 is included in this worksheet, and is deducted from the calculated required local effort total. The value of the credit is updated for budget actions contained in the House and Senate amended 2006-2008 budgets.

Please note that this "Hold Harmless Sales Tax Credit (FY 2007 Only)" amount shown on line 25 of this spreadsheet incorporates the amended sales tax estimates into the calculation of the credit. School divisions should recognize that this credit attributed to the calculation of required local effort may

affect whether or not the division will meet required local effort in fiscal year 2007.

The fifth spreadsheet, labeled "Budgeted Local Operational Exp.," is a template that school divisions can use to estimate required local expenditures for the SOQ for fiscal years 2007 and 2008. This form is intended for planning purposes only, and does not take the place of the required reporting to the department for budgeted or actual required local effort.

The sixth spreadsheet, labeled "Hold Harmless Sales Tax - FY 07," details the calculation of the hold harmless sales tax. This spreadsheet displays the original hold harmless sales tax payment amount approved in Chapter 10, as well as the incremental change(s) in this payment resulting from the change(s) to the fiscal year 2007 sales tax estimate. Please note that the hold harmless sales tax payments for fiscal year 2007 are not final and may be adjusted again based on final changes adopted by the General Assembly or based on actual state sales tax receipts for fiscal year 2007 as finalized in June 2007.

The seventh spreadsheet, labeled "Basic Aid," displays the instructional and support cost components of the Basic Aid per pupil amounts for each division and the calculation of the state and local shares of Basic Aid cost for fiscal years 2007 and 2008.

The eighth spreadsheet, labeled "Funded Positions," displays the funded Basic Aid support positions salary cost, as well as the funded SOQ instructional positions. This information was frequently requested by individual school divisions, and is now included in the calculation template for your information.

The ninth spreadsheet, labeled "K-3," displays the actual fiscal year 2007 and projected fiscal year 2008 school-level entitlements for the K-3 Class Size Reduction program. Please note that the calculations use base-year October 2004 free lunch eligibility data. New schools that open during each fiscal year will be assigned the division-average free lunch eligibility rate for calculation purposes in the first year of operation only; in subsequent years, the actual school-level eligibility percentages will be updated and used.

The tenth spreadsheet, labeled "Statewide Totals," provides information on total state and local shares of funding for

Direct Aid accounts for all school divisions in fiscal years 2007 and 2008.

The eleventh spreadsheet, labeled "Account Funding Matrix," contains a summary of Direct Aid account information for fiscal years 2007 and 2008. This sheet explains which accounts are based on Fall Membership or ADM and which accounts require a local match. There is also information on whether an account is automatically paid each fiscal year beginning on the July 16 payment or whether the program requires an application or certification prior to payment.

The twelfth and final spreadsheet, labeled "Account Funding Explanations," provides information on funding formulas for the SOQ, school facilities, incentive, and categorical accounts.

If you have any questions about this information, please contact the Department of Education Budget Office at (804) 225-2025.
