

## Virginia Department of Education

### Guidance for Identifying Eligible Institutions and Counting Children Who are Neglected or Delinquent

#### Instructions and Definitions

##### Local Institutions

1. In Section A on Attachment B, identify eligible institutions. In order to be eligible to be counted, a child aged 5 through 17 must live in a locally-operated facility that meets the definition of an institution for neglected children, an institution for delinquent children, or an adult correctional institution as provided in Section 1432(1) and (4) of the Title I statute. It is not necessary to designate a child as neglected or delinquent because, if he or she is between ages 5 and 17 and is in an institution that meets the definitions, that child would be eligible to be counted. In Section B of Attachment B, indicate the name and address of the institutions in your division from which the count in Section A was derived.
2. Report the October 2014 caseload data for children in eligible institutions. The state educational agency (SEA) must report only the number of children who were not counted in the enrollment data for the state agency N or D program and live in an eligible institution for at least one day during a 30-consecutive day period, **at least one day of which falls within the month of October 2014.**
3. Submit a separate count of children for each school division in the following categories of institutions:
  - Local institutions for neglected children (see the definition cited on the next page).
  - Local institutions for delinquent children. In this category, also include children in local adult correctional institutions (see the definition of the term cited on the next page).

Please note that the category of an institution should not change from year to year unless there has been an official change in the purpose for which the institution is operated. For example, if an institution is operated for the care of neglected children, but the majority of the children residing in the institution during October are children adjudicated to be delinquent, the institution should still be reported as an institution for neglected children until its charter or purpose is officially changed to show that it is an institution operated for the care of delinquent children. Consistency in reporting from year to year is necessary because changing the category of an institution each year based on the category of the majority of children served affects the hold-harmless allocations and eligibility under the Title I, Part A, formula.

4. Count only children ages 5 through 17.
5. Verify the accuracy of the data to be submitted. Compare the October 2014 data to the data that were submitted last year. If there is a large increase or decrease in an LEA count, identify the reason. For example, did a new institution begin operation? Did an institution close? Were only children 5 through 17 reported in the count? While it is not necessary to submit documentation to support the accuracy of the data, the Virginia Department of Education may contact your school division if USED has questions related to verifying the counts.

## Definitions

34 CFR Part 200  
Regulations for Title I  
Section 200.90 – Program Definitions

1. **“Institution for neglected children and youth”** means a public or private residential facility, other than a foster home, that is operated primarily for the care of children and youth who (a) have been committed to the institution or voluntarily placed in the institution under applicable state law due to abandonment, neglect, or death of their parents or guardians; and (b) have had an average length of stay in the institution of at least 30 days.
2. **“Institution for delinquent children and youth”** means a public or private residential facility that is operated for the care of children and youth who (a) have been adjudicated to be delinquent or in need of supervision; and (b) have had an average length of stay in the institution of at least 30 days.
