

# Recruitment Event for College Graduates!

*All Virginia students* benefit personally and intellectually when they learn from education professionals with a variety of racial, ethnic, socio-economic and religious backgrounds and lived experiences. Like the rest of the country, Virginia is facing a rapidly-growing teacher shortage and a shrinking pool of candidates that is increasingly less diverse.

Sessions will be held to highlight the importance of diversity in Virginia's educator pipeline. Attendees will be connected to resources and have the opportunity to meet with school division HR representatives from across the state.

Teaching. Learning. Leading.
