Preface

The purpose of these guidelines and curriculum is to keep students safe and to prevent gun accidents by providing simple steps to follow if they should encounter a gun at home, school or in the community. This curriculum is based on the premise that all community members want to protect students from unintentional gun accidents, injuries or deaths. The rules and principles of firearm safety and accident prevention are the basis for the development of the curriculum and guidelines.

The Board of Education adopted the *Elementary School Gun Safety Guidelines and Curriculum* according to § 22.1-204.1 of the *Code of Virginia, Firearm safety education program.*

Local school boards may provide firearm safety education programs for students in the elementary school grades. To assist local school boards electing to provide firearm safety education programs, the Board of Education shall establish curriculum guidelines for a standardized program of firearm safety education for the elementary school grades to promote the protection and safety of children enrolled in the public schools. The curriculum guidelines shall incorporate principles of firearm safety, accident prevention and the rules of the National Rifle Association’s *Eddie Eagle GunSafe Program.* Local school boards choosing to offer an elementary gun safety program must comply with the Board of Education guidelines and integrate the instruction in appropriate subject areas and, if feasible, ensure that every elementary school student receives instruction in firearm safety education.

Guns are very rarely brought into schools. Gun accidents occur most often in the community or in the home of students. It is important for parents to be aware and informed of these lessons. Therefore, a sample parent notification regarding the gun safety lessons is included in the Appendix A. The guidelines also provide resources on precautionary steps for minimizing the possibility of a gun accident and encourages parents to discuss gun safety with their children.

The *Elementary School Gun Safety Guidelines and Curriculum* provides background information on gun use and consequences from the misuse of guns in our country and in the Commonwealth of Virginia. This information is intended to enhance the instructor’s understanding of the context for facilitating the curriculum lessons.

Each lesson is complete with background information, lesson guidelines and plans, suggested scripts for teachers with discussion points, and student materials. Lessons are aligned with specific Virginia Standards of Learning for each grade. Instructors are provided general suggestions for using “teachable moment” opportunities. These may include expanding students’ understanding of the difference and similarities between real and toy guns, unintended consequences, and an introduction to the student code of conduct and gun offenses. School divisions should develop procedures for instructors to assist students who may disclose sensitive information during the lesson.

The curriculum is designed as single units of instruction for each grade. In addition to what to do if a student were to find a gun, the kindergarten through second-grade lessons assist students in recognizing professionals who use guns for safety reasons and individuals who safely use guns for sporting activities. The third- through fifth-grade lessons continue to focus on what to do if a student were to find a gun. The consequences of gun violence and personal responsibility for gun safety in the community are introduced. In each lesson the character “Finnigan the Fox” is present as the safety mascot. This character is used to reinforce the message that if a student sees a gun: “Leave it Alone; Leave the Area; and Let an Adult Know.”
Background Information

Youth violence has an impact on a community in a number of ways. When an act of violence occurs and involves a young person, whether as a victim, aggressor, or witness, there are life-changing consequences. The impact of an event may affect the youth in physical and emotional ways. The impact on the community can include medical costs and fear and discomfort. According to the Virginia Department of Health, Division of Prevention and Health Promotion Web site:

Childhood unintentional shooting deaths occur more frequently in or around the home of a friend or relative. While Virginians have the right to own guns, they have the responsibility to store those guns safely and out of children's reach. According to the 2002 Virginia Behavioral Risk Factor Surveillance Survey, approximately 38 percent of Virginians keep firearms in or around their homes; and 1 in 6 are unlocked and loaded.

An even larger number of children are hurt by nonfatal gun-related injuries. Although gun-related injuries peak in adolescence, they can affect infants and younger children too. Younger children are most likely injured, either shooting one’s self or a playmate, after finding a gun in a home and playing with it, not realizing that the gun is real or that it is loaded.

Many individuals within a community carry guns. Students need to understand which community members may publicly carry guns. The Code of Virginia at § 18.2-308 states that those who can carry a gun for their occupation or recreation include law-enforcement officers, licensed security guards, and military personnel in the performance of their lawful duties, or any person having a valid concealed handgun permit or any person engaged in lawful hunting or lawful recreational shooting activities at an established shooting range or shooting contest.

Many gun incidents are accidents and can be prevented by knowledge and practice of gun safety behaviors. This background information provides the context from which instructors should teach this material.

Handling Sensitive Student Disclosures

Teachers should be aware that gun safety discussions may elicit an emotional response in students. Responses may include a student sharing how many guns his/her parent has in their home, that someone they know was a victim of gun violence, or even that they have witnessed gun violence. Each school division needs to develop protocols and procedures that enfold community culture and norms to address sensitive student disclosures. The protocol should include guidance for responding to a student’s disclosure in the classroom. Consulting with a school counselor, social worker, psychologist, student assistance specialist or principal should be included in the protocol. Instructors should be aware of any recent community events involving guns or violence when teaching the lessons.

GUN SAFETY LESSON

FINNIGAN FOX SAYS . . .
See a GUN?
Leave it Alone, Leave the Area, Let an Adult Know!
**Kindergarten Lesson Profile**

Students will learn to identify individuals in the community who safely carry guns as a part of their job. Activity one entails discussing with students the duties of community helpers and why they would or would not carry a gun. The *Code of Virginia* § 18.2-308, personal protection; carrying concealed weapons; when lawful to carry, states that those who can carry a gun for their occupation or recreation include law-enforcement officers, licensed security guards, and military personnel in the performance of their lawful duties, or any person having a valid concealed handgun permit or to any person engaged in lawful hunting or lawful recreational shooting activities at an established shooting range or shooting contest.

In activity two, a story will highlight the three gun safety rules: leave it alone; leave the area; let an adult know. The characters Kevin, Jimmy, Sarah, and Roscoe are friends and live in the same neighborhood. They often play outside after school. They find a gun in the bushes and have to decide what to do. This will help students learn three safety rules to use for making a good choice if a gun is discovered.
Kindergarten Lesson Objectives and Instructional Steps

Objective One
Students will learn to recognize community members who safely use guns.

Objective Two
Students will learn three safety rules for making a good choice when a gun is discovered.

Instructional steps
1. Students will be introduced to gun safety through a question and answer session. The students will identify who they think uses guns in the community as a part of their jobs.

2. Students will complete the “Helpers Who May Carry A Gun” activity. This activity will help students through a guided practice of identifying community helpers who may carry a gun. The activity may be completed as a classroom or individual exercise by using the PowerPoint slide.

3. Teachers will read “The Bushes,” a gun safety story, and discuss key points by asking the students what they would do if they found the gun.

4. Students will be taught the three gun safety rules – Leave It Alone. Leave the Area. Let an Adult Know.

5. At the closure of the lesson, students will repeat the safety rules aloud to assist in the memorization and application of the safety rules.

HELPERS WHO MAY USE A GUN

Directions: Circle the people that carry a gun as part of their job.
Kevin, Jimmy, Sarah, and Roscoe are playing in the park near their home.
Jimmy wanders towards the bushes and spots what looks like a gun.
He calls Kevin, Roscoe, and Sarah over to see the gun. Sarah tells the boys, “I don’t want to see a gun unless a trusted adult is with me!”
The boys quickly run to Kevin’s Mom who is nearby and tell her they have found a gun. Kevin’s Mom tells the boys she is happy they followed “Finnigan the Fox Gun Safety Rules.”

First Grade Lesson Profile

In activity one, students will explain why individuals in the community safely carry guns as part of their jobs. Each person is in a job that requires that he or she carry a gun for protection. This protection is for the safety of other people. The second activity focuses on people who should safely use guns in a sport.

The *Code of Virginia* § 18.2-308, personal protection; carrying concealed weapons; when lawful to carry, states that those who can carry a gun for their occupation or recreation include law-enforcement officers, licensed security guards, and military personnel in the performance of their lawful duties, or any person having a valid concealed handgun permit or to any person engaged in lawful hunting or lawful recreational shooting activities at an established shooting range or shooting contest.

In the safety story, “The Box,” Johnny and Mia are friends who are riding their bikes in the neighborhood. Johnny’s older brother, Fred, wants to show them what is in his backpack. Fred takes a box out of his backpack, opens the box in front of Johnny and Mia, and displays a gun. They react to see the gun by seeking an adult.

Discussion Points

Display the PowerPoint slide of the hunter and individuals shooting at a target. You may ask the students, *"Can you think of other activities where a person might use a gun safely?"* Examples of student answers may include:

- Movies or television
- War enactments
- Video games
- Hunting videos
- Sport programs involving target shooting
- Olympic shooting competitions

Verifying Knowledge

Pass out the activity sheets People Who Use Guns to Protect and People Who Safely Use Guns in a Sport, or use the PowerPoint slides to facilitate this as a class activity. Instruct the children to identify the people in jobs who use guns to protect others by placing the correct number in the box next to the figure. Then ask the students to place the correct shape in the box next to the people who use a gun safely in a sporting event.

Suggested Script for Teacher

*Sometimes a gun is misplaced or we find it accidentally. We are going to read the story "The Box." While we read the story, think about what you would do.*

Discussion Points

Present the story by using the PowerPoint slides. After reading the story ask the students:
• Did Mia and Johnny make the correct decision?  (Answer – Yes)
• Was it right or wrong for Fred to have the gun?  (Answer – Wrong)
• What was the right action for Fred to take?  (Answer – Let an adult know he found a gun.)

Provide instruction to the children on “Finnigan the Fox Safety Rules” using the PowerPoint slide.

Ask the students what they think the adult should do once Mia and Johnny told her about the gun. Examples of student answers may include:
• Find Fred.
• Keep Mia and Johnny away from Fred and the gun.
• Call the police.

Teachers may explain to the students the following steps adults should follow: (1) reinforce the students for following “Finnigan the Fox Gun Safety Rules;” (2) ask the students to identify the location of the gun; (3) make sure the children are safe; (4) do not touch the gun; (5) do not allow anyone else near the gun; (6) call the local law enforcement authorities; and (7) do not leave the gun until it is properly secured by law enforcement authorities.

Second Grade Lesson Profile

In activity one, students will explain the job each person has and why they may carry a gun. Students need to learn which community helpers may legally carry guns as a part of their jobs. The second activity reinforces the reason why certain jobs require guns.

According to the Code of Virginia § 18.2-308, personal protection; carrying concealed weapons; when lawful to carry states that those who carry a gun for their occupation or recreation may include law-enforcement officers, licensed security guards, and military personnel in the performance of their lawful duties, or any person having a valid concealed handgun permit or any person engaged in lawful hunting or lawful recreational shooting activities at an established shooting range or shooting contest.

The students will read “Andrew’s Big Surprise,” a gun safety story, and through a sequence of events conclude the importance of making a good choice if a gun is found. In the story, Sean’s mom invites Sean’s friends Antonio and Andrew over after school to play. Andrew is surprised to find a gun in Sean’s parent’s closet and must decide what to do next. The story events will help students learn the three gun safety rules: Leave It Alone, Leave the Area, Let an Adult Know.
Second Grade Lesson Objectives and Instructional Steps

Objective One
Students will learn why certain community helpers need to carry guns as part of their roles in the community.

Objective Two
Students will learn the difference between safe and unsafe situations if a gun is discovered.

1. Students will review the pictures of individuals who use guns from the PowerPoint slide and discuss why these people need guns for their jobs.

2. Each student will complete the multiple-choice activity from the PowerPoint slide “Carrying Guns is a Part of Their Jobs.” Then review and discuss the answers. This activity can also be done in small groups.

3. Students will read aloud the story of Andrew’s Big Surprise from the PowerPoint slide. Teachers may assign the characters in the story to a small group of students to play act.

4. Students will complete the discussion questions from the PowerPoint slide for Andrew’s Big Surprise. Teachers will check for understanding of the material.

5. At the conclusion of the lesson, students will recite the rules for gun safety: Leave it Alone; Leave the Area; Let an Adult Know.

- Olympic shooting competitions

Verify Knowledge

Display “Why Do These People Carry a Gun?” and “Carrying Guns is a Part of Their Jobs” PowerPoint slides. Use the slides as activity sheets. Conduct a discussion to check for understanding of the reasons guns are used by specific community helpers.

Answers to “Carrying Guns is a Part of Their Jobs:” 1) A, 2) B, 3) C.

Discussion Points

Display the PowerPoint slides for the story “Andrew’s Big Surprise” and discussion questions. Check for the students’ understanding of what to do and who to go to for help if they were to find a gun.

Answers to “Andrew’s Big Surprise” discussion questions: 1) Leave it alone, 2) Leave the area, 3) Let an adult know, 4) Leave it alone; leave the area; let an adult know.

GUNS AND PERSONAL SAFETY

The use of guns may seem exciting when you see them on television, in the movies or, on a video game. But, in real life guns can be very dangerous, and because of the misuse of guns, people can be seriously hurt or killed.

Guns have played an important part in the history of America. Men and women have used guns to defend our freedom and protect our communities. Guns are also used for sport shooting and hunting. People who own or use guns as part of their jobs or in sports know how important it is to handle guns safely.

Guns are not toys and are very dangerous when people do not know the proper safety rules. Today you will learn a number of important safety rules to remember. If you ever see a gun without a trusted adult’s supervision, then you will know what to do to stay safe.

GUN SAFETY

LESSON
Fourth Grade Lesson Profile

In activity one, students will learn about influential Americans who died because of gun violence. The following national figures are discussed in the activity.

- **Abraham Lincoln** was the 16th president of the United States of America. He served from 1861 until 1865. His key accomplishments include leading the Union during the Civil War and signing the Emancipation Proclamation on January 1, 1863, which freed the slaves in the Confederacy. Abraham Lincoln was assassinated on April 14, 1865, at the close of the American Civil War. He was shot by John Wilkes Booth while watching a play at the Ford’s Theater in Washington, D.C.

- **John F. Kennedy** was the 35th president of the United States of America. He served from 1961 until 1963. He was the youngest person to be elected president. He was a strong advocate for civil rights legislation. His presidency ended when he was assassinated by Lee Harvey Oswald on November 22, 1963, while riding in a presidential motorcade in Dallas, Texas.

- **Martin Luther King, Jr.** was a leader in the Civil Rights Movement. His leadership initiated change in a racially segregated American society. His famous “I Have a Dream Speech,” which further empowered the Civil Rights Movement, was delivered on the steps of the Lincoln Memorial on August 28, 1963. Martin Luther King, Jr. was assassinated by James Earl Ray on April 4, 1968, while standing on the balcony of his hotel room where he was to lead a protest march in Memphis, Tennessee.

In activity two, students will learn about these American heroes, the influence they had on American society, and the impact of their death by gun violence. Students will independently write a paragraph on the contributions of one of the famous men and the impact of his death on our society.

In this lesson, students will also learn about the impact of gun violence on the community. In activity three, students will write five gun safety rules they think are important to follow in their community.

Fourth Grade Teacher Suggested Script and Discussion Points

Teacher Suggested Script

Today we are going to talk about gun safety. Gun safety to protect children and others is not just a responsibility for adults. Each of you needs to hold each other accountable for following firearm safety rules. The violence that could occur from not respecting the rules of gun safety could change your life, my life, and the lives of many. The violence from not using guns in a proper way could also change the course of history.

Discussion Points

Show the PowerPoint slide of the three famous Americans, Abraham Lincoln, John F. Kennedy, and Martin Luther King, Jr., and discuss with the students what these men had in common. Examples of students’ answers may include:

- Leaders in our country
- Presidents
- Killed by gunfire

Each one of these great Americans made a lasting difference in our society but they also had their lives cut short by gun violence.

Have the students individually write a paragraph on one of the famous Americans and the impact their lives had on others and review the paragraphs as a class. Then ask the students to share their ideas on how history may have been different if these famous men’s lives had not been cut short by gun violence. (All answers may be accepted under the guidelines of a positive impact they may have had on our country.)

Teacher Suggested Script

Our community needs gun safety rules for all youth to follow. Today we are going to discuss some rules you feel all students should follow any time they find a gun.

Discussion Points

Display the PowerPoint slide “Gun Safety is Everyone’s Job” and read the paragraphs that share the impact of gun violence in our society. Ask the children what they think gun safety rules should be. List them on a chart and accept everyone’s answer.

Verify Knowledge

Pass out the gun safety “You Decide” activity sheet. Organize the students into groups and ask them to create a list of rules for the community to follow to help keep all children and youth safe. Have students share their ideas with the other groups. As a classroom activity, ask the children to choose the five most important gun safety rules for the community from the list created by the class.

The following concepts are important to incorporate into community rules:

- If you find a gun anywhere, STOP! Leave it alone. Don’t let anyone touch it. Leave the area. Let an adult know.
- If a gun looks like a toy, don’t touch it. Some real guns may look like toy guns, so don’t take a chance. Leave the area and immediately tell an adult.
- If you suspect someone has a gun at school or another public area and he or she does not look like a community helper, tell a trusted adult.
- If you need help, call 911 immediately.

GUN SAFETY IS EVERYONE’S JOB

Each year in the United States thousands of people are injured or killed by gunfire. The real tragedy in these numbers is that a number of the deaths are children who mishandle or play with guns. Unlike the movies and popular video games, people who are injured by gunfire see their lives change forever. Families who lose children from gunshot deaths are forever impacted.

Gun injuries and deaths can be prevented if everyone would follow several important gun safety rules. Gun safety is everyone’s job from parents to community leaders to each student in a school. Today you will have the chance to share how you can make your community safer by understanding the potential harm that guns can cause and by following safety rules.

FIFTH GRADE

GUN SAFETY

LESSON

FINNIGAN FOX SAYS...

See a GUN?

Leave it Alone, Leave the Area, Let an Adult Know!
In activity one, students will learn that gun safety involves an “attitude” about guns. The attitude conveys respect for an object that is dangerous and supports the belief that gun safety training is a good practice for anyone who may use a gun. A continued respectful “attitude” and the practice of gun safety prevents unintentional gun accidents. To reinforce this material, students will answer multiple-choice questions in activity two about gun safety and the community.

As a culmination of all the gun safety rules learned from grades kindergarten through grade five, fifth-grade students will sign the pledge to commit to preventing gun violence. This pledge may be put on a bulletin board along with personalized student-created posters displaying understanding and commitment to gun safety.
Fifth Grade Lesson Objectives and Instructional Steps

Objective One
Students will learn gun safety is an intentional practice that can help prevent gun accidents, injuries and deaths.

Objective Two
Students will develop steps to promote gun safety in the community and demonstrate a commitment to prevent gun violence.

Instructional Steps
1. Students will be able to recognize myths that may lead to the misuse and abuse of handling guns.

2. Display and read the PowerPoint slide “Gun Safety and You” PowerPoint slide. Engage students by using the “Gun Safety and You Discussion Questions and Assignment” on the PowerPoint slide.

3. Students will divide into groups and discuss the three questions to the activity “What should you do if...?” Upon completion, students will share and discuss their answers aloud. Students will acknowledge what should be done if they find a gun or know of a peer who has a gun.

Students will conclude this lesson by acknowledging the importance of gun safety. Each student will read and sign a pledge to respect guns and create a poster that promotes gun safety rules. The teacher may want to display the posters and pledges on a bulletin board in the school.

Fifth Grade Teacher Suggested Script and Discussion Points

Suggested Script for Teacher

*Today we are going to talk about gun safety. Gun safety rules help to prevent accidents. Gun safety starts with each and every one of you and your pledge to keep our community safe.*

Discussion Points

Display the PowerPoint slide “Gun Safety and You” and read aloud the information. Use the “Gun Safety and You” discussion questions to engage students in critical thinking about gun safety. As a classroom or small group activity, ask the students to develop steps for promoting gun safety in the community, and share and discuss their answers.

The following concepts are important to incorporate into developing steps for promoting gun safety.

- If you find a gun anywhere, STOP! Leave it alone. Don’t let anyone touch it. Leave the area. Let an adult know.
- If a gun looks like a toy, don’t touch it. Some real guns may look like toy guns, so don’t take a chance. Leave the area and immediately tell an adult.

GUN SAFETY AND YOU

Some people may think guns are cool and exciting. For some people they represent a source of power. For others toy guns serve as a form of entertainment in video games, but in reality guns are serious and should be respected. The respect begins with following the gun safety rules.

Some individuals across America misuse and abuse the firing and shooting of guns. This abuse of guns leads to senseless and preventable violence.

Each year in the United States tragedy strikes within a local city or town when a gun is mishandled or fired accidentally. In a number of these situations the life of a young person ends. There is no possibility of that person reaching his or her dreams because of the mishandling of a gun.

Gun safety is a way to prevent serious injuries or the loss of a life. Gun safety begins with you and starts with your pledge to help make your community safe.
GUN SAFETY AND YOU

Discussion Questions

- What are some examples of how the wrong attitude towards guns may contribute to gun violence?
- What is meant by “respecting a gun?”
- What are some examples of not respecting a gun?

Assignment
As a group, decide on some steps for promoting gun safety to keep our communities safe.
WHAT SHOULD YOU DO IF...

Directions

Read the following situations. Use the questions at the bottom of the page for each scenario, and prepare to discuss them with the class.

1. Your best friend has found a gun at the park and decides to hide it and not tell anyone.

2. Your parents are out of town and you are at home with your older brother who invited a friend over. The friend shows you a gun and states it belongs to his father.

3. Your best friend at school has been bullied for over a week by a student in another class. He has stated that he plans to bring a gun to school to scare the bully.

APPENDICES
Dear Parents/Guardians:

Your student’s class will be introduced to safety rules to prevent gun accidents within the near future. The purpose of the lesson is to keep students safe by providing simple steps for them to follow if they should encounter a gun without a trusted adult’s supervision. The lesson is based on the premise that all community members want to protect students from gun accidents, unintentional related injuries or deaths. The rules and principles of firearm safety and accident prevention are the basis for the development of the lesson.

There is a different lesson for each grade level from kindergarten through fifth grade. The lessons are designed to provide students with simple steps to follow should they encounter a gun while alone or with other children.

The kindergarten through second grade lessons assist students in recognizing professionals who use guns for safety reasons and individuals who safely use guns in sporting events. Students will learn the following safety rules if they were to find a gun: leave it alone; leave the area; let an adult know.

The third- through fifth-grade lessons continue to focus on what to do if a student were to find a gun and address the consequences of gun violence, and personal responsibility for gun safety in the community. In addition, a student pledge to follow the rules to prevent gun accidents, related injuries, and deaths is encouraged.

In each lesson, the character “Finnigan the Fox” is present as the safety mascot. This character is used to reinforce the message that if a student sees a gun to “Leave it Alone; Leave the Area; and Let an Adult Know.” After each lesson, students are encouraged to share what they learned with their parents.

Information on gun safety and gun safety precautions may be found on the Virginia Department of Health Web site at http://www.vahealth.org/injury/topics/gunsafety/index.htm. The following sections from the Code of Virginia are mentioned in the Elementary School Gun Safety Guidelines and Curriculum. In addition, an excerpt from § 22.1-277.07 of the Code of Virginia describes the exceptions for allowing guns on school property or at a school-sponsored event. The Code may be found in detail on the Virginia General Assembly Legislative Information System Web site at http://leg1.state.va.us/lis.htm.

§ 22.1-204.1. Firearm safety education program.

Local school boards may provide firearm safety education programs for students in the elementary school grades. To assist local school boards electing to provide firearm safety education programs, the Board of Education shall establish curriculum guidelines for a standardized program of firearm safety education for the elementary school grades to promote the protection and safety of children enrolled in the public schools. The curriculum guidelines shall incorporate, among other principles of firearm safety, accident prevention and the rules upon which the Eddie Eagle GunSafe Program offered by the National Rifle Association is based. Local school boards electing to provide firearm safety education shall offer instruction pursuant to the Board's curriculum guidelines and shall integrate firearm safety education into appropriate subject areas, if feasible, to ensure that every elementary grade student completes the course of study in firearm safety education.

§ 18.2-308. Personal protection; carrying concealed weapons; when lawful to carry.

This section of the Code specifies when carrying a concealed weapon is lawful. Those who can carry a gun for their occupation or recreation include law-enforcement officers, licensed security guards, and military personnel in the performance of their lawful duties, or any person having a valid concealed handgun permit or to any person engaged in lawful hunting or lawful recreational shooting activities at an established shooting range or shooting contest.

§ 22.1-277.07. Expulsion of students under certain circumstances; exceptions. Sections D and F of this section describe the exceptions as follows:

...D. No school operating a Junior Reserve Officers Training Corps (JROTC) program shall prohibit the JROTC program from conducting marksmanship training when such training is a normal element of such programs. Such
programs may include training in the use of pneumatic guns. The administration of a school operating a JROTC program shall cooperate with the JROTC staff in implementing such marksmanship training.

F. The exemptions set out in § 18.2-308 regarding concealed weapons shall apply, mutatis mutandis, to the provisions of this section. The provisions of this section shall not apply to persons who possess such firearms or firearms or pneumatic guns as part of the curriculum or other programs sponsored by the schools in the school division or any organization permitted by the school to use its premises or to any law-enforcement officer while engaged in his duties as such.
