Background Information and Statutory Authority:

Goal 1: Revisions to the criteria for the *Virginia Index of Performance* (VIP) will support accountability for all public schools by establishing policies that help schools and school divisions to increase the academic success of all students, especially those who are at-risk or in underperforming school systems.

Virginia's Application for U.S. Department of Education Flexibility from Certain Requirements of the Elementary and Secondary Education Act of 1965 (ESEA) requires the identification of reward schools as part of the accountability system.

The VIP incentive program was designed to measure the extent to which students are progressing towards advanced proficiency levels in reading, mathematics, science, and history and social science recognize achievement and student progress based on other key indicators, and encourage schools' and divisions' efforts to provide Virginia's students with excellent educational opportunities.

On October 25, 2012, additional revisions were approved by the VBOE to modify certain provisions of VIP guidelines to meet Section 22.1-253.13:9 of the Standards of Quality (SOQ) and *Virginia's Application for U.S. Department of Education Flexibility from Certain Requirements of the Elementary and Secondary Education Act of 1965 (ESEA)*.

Summary of Important Issues:

The VIP program uses a weighted methodology to calculate a VIP achievement index based on assessment results in each content area (English, mathematics, science, and history and social science), and provides opportunities for schools and school divisions to apply additional or "bonus" points to the content area indices by meeting additional VIP indicators.

The purpose of this item is to modify certain criteria of VIP guidelines approved by the VBOE in order to include all schools that are not required to write a plan of improvement under Virginia's ESEA waiver in the methodology to calculate a VIP achievement index and to provide additional points for students that score proficient on the recently implemented, more rigorous state assessments. In addition, technical edits to clarify other criteria have been made. Attachment A provides the revised guidelines including the eligibility criteria, the base points needed to earn an award, and the potential bonus points that may be added to the base index points to enable schools to earn a VIP award.

Impact on Fiscal and Human Resources:

None

Timetable for Further Review/Action:

The revisions to criteria for the *Virginia Index of Performance* are expected to come before the Virginia Board of Education for final review on October 24, 2013.

Superintendent's Recommendation:

The Superintendent of Public Instruction recommends that the Virginia Board of Education accept for first review the modifications to the *Virginia Index of Performance* to be effective for the 2013-2014 academic year.

**Proposed Modifications to the Language of the Virginia Index of Performance
Approved by the Board of Education on October 25, 2012**

Overview

VIP awards presented to schools and school divisions are based on criteria and guidelines adopted by the Board of Education. Schools and school divisions must meet or exceed all applicable state and federal accountability requirements for at least two consecutive years.

- **Board of Education Distinguished Achievement Award** – 75 VIP points (including bonus points) in each content area
- **Board of Education Excellence Award** – 80 VIP points (including bonus points) in each content area
- **Governor’s Award for Educational Excellence** – 80 VIP base points in each content area and meet all state objectives for increased achievement and expanded opportunity

In addition, high schools and divisions *must* graduate at least 85 percent of students with a Standard or Advanced Studies Diploma within six years – or achieve an annual increase in their graduation rate for the Board of Education Distinguished Achievement Award – and have a dropout rate of 10 percent or less. Schools and school divisions that experience significant irregularities in the administration of Standards of Learning (SOL) and other state assessments are ineligible.

Weighted Index and Calculation

VIP points reflect a weighted average of proficiency levels on statewide assessments and progress toward educational goals established by the Board of Education and the governor. Schools and school divisions earn points on an index calculated on all statewide assessments with the following weights:

- Advanced proficient: 100
- Proficient: ~~75~~ 80
- Basic: 25
- Fail: 0

The weighted index is applied to all assessments taken in the school or division. Separate base scores are calculated for each content area – English, mathematics, science, and history/social science – using the following formula: (Following the calculation of the weighted index, additional index points are awarded as indicated in the next section.)

$$\frac{(\text{Advanced Proficient tests} \times 100) + (\text{Proficient tests} \times \del{75}80) + (\text{Basic tests} \times 25)}{\text{Total Tests Administered}}$$
