Steps for Teaching Math Through Games:

1. Choose math skill(s) to teach
   5 key areas of math include:
   1. Numeracy
      Preschoolers can work on skills including Counting, Cardinality, and Recognizing Numerals
   2. Operations
      Preschoolers can work on Addition and Subtraction
   3. Classification and Patterning
   4. Measurement
   5. Geometry

2. Set the stage
   Choose a group of children
   Gather needed materials
   Introduce game and rules

3. Use foundational teaching practices
   Use math language
   Ask open-ended questions
   Model math skills
