Instructions for Completing March 31 Average Daily Membership (March 31 ADM)

Average daily membership is determined by dividing the TOTAL aggregate daily membership by the number of days school was in session, from the first day of the 2016-2017 school term through the last school day in March 2017 (March 31, 2017). This document also provides instructions for completing the March 31, 2017, ADM including instructions for adjusting Kindergarten enrollment for half-day Kindergarten programs.

Law, Policy and Regulations

For your reference, the following resources are available for completing March 31 ADM.

Sections from the appropriation act, Code of Virginia, and Board of Education regulations that pertain to the reporting of March 31 ADM are available at the following Website:

http://www.doe.virginia.gov/info_management/data_collection/student_record_collection/index.shtml

Student Record Collection Codes, Scenarios, and Specifications

Explanations of the various tuition codes, disability codes, and other codes referenced in this document are available at the following Website:

http://www.doe.virginia.gov/info_management/data_collection/student_record_collection/index.shtml

How to Use this Guide

Please read all sections of these instructions prior to calculating your March 31, 2017, ADM to ensure that your division's March 31 ADM is reported accurately. Appropriate supporting documentation must be maintained for each line of this report, in the event that a subsequent audit of March 31 ADM data is necessary.

There is one section in this guide for each March 31 ADM calculation. For each calculation, a text reference is provided followed by the "formula" used to generate the addition or deduction. All formulas are defined in terms of the Student Record Collection. This should enable the division to verify the accuracy of the calculations on the verification report.

Interpreting the Codes in this Guide

Code	Meaning
< >	Not equal to
8/1	August 1 of current school year
9/30	September 30 of current school year
12/31	December 31 of current school year

Resources for Completing March 31 ADM

Definitions of Key Terms	
Term	Meaning
Local share of tuition	The local share of the total operational cost per pupil based on the composite index of the serving division
State share of tuition	The state share of the average daily membership (ADM) funding on a per pupil basis
Full tuition	The total operational cost per pupil for a serving division or private institution

Beginning Unadjusted March 31 ADM

Beginning Unadjusted March 31 ADM

The Beginning Unadjusted March 31 ADM calculation is the sum of March 31 ADM for all K-12 and postgraduate pupils except:

- disabled pupils ages 20 and 21
- pupils in alternative education programs
- non-public school pupils
- pupils in ISAEP
- pupils in home-based education
- private special education (does not include students funded by the Comprehensive Services Act)
- students funded with Comprehensive Services Act funds
- contiguous out-of-state students **with** the same attendance privileges
- inter-state compact placement
- contiguous out-of-state students **without** the same attendance privileges
- students in a virtual program delivered by an approved Multi-Division Online Provider (MOP)

In short, Beginning Unadjusted March 31 ADM is all students in kindergarten through postgraduate programs reported by your division MINUS the March 31 ADM additions.

Unadjusted March 31 ADM is displayed in the above manner in the verification report to provide divisions with detailed information from the data processed through the Student Record Collection.

Beginning Unadjusted March 31 ADM

Notes: All dates reference the current school year.

School-age students are those who are:

- Less than 20 years old as of August 1st for regular education students
- Less than 22 years old as of September 30th for special education students
- Less than 22 years old as of August 1st for students receiving Limited English Proficient services

Kindergarten Students

Generally, only those children who reach their fifth birthday on or before September 30, may be included in the unadjusted March 31 ADM total. However, any student whose fifth birthday occurred between October 1, and December 31, may be enrolled in Kindergarten after an appropriate readiness evaluation has demonstrated that attendance in these programs would educationally benefit these children (§22.1-199 C., Code of Virginia). Any school that offers a two-tiered, junior, or other developmentally appropriate pre-kindergarten program or transitional first grade program, is required to conduct an appropriate readiness evaluation for students whose fifth birthday occurred between October 1, and December 31, for them to be enrolled in the regular Kindergarten program and then be counted in March 31 ADM.

Such students are not required to first be enrolled in a two-tiered, junior, or other developmentally appropriate pre-kindergarten program or transitional first grade program before they are tested. Any student may be tested and go straight to the regular Kindergarten program as long as the school offers a two-tiered, junior, or other developmentally appropriate pre-kindergarten program or transitional first grade program. Such students may be included in March 31 ADM upon enrollment in the regular Kindergarten program.

Dual Enrollment Students

A school division may include students who participate in a dual high school/college enrollment program in its unadjusted March 31 ADM (reference Informational Supts. Memo No. 58, dated March 8, 1989). However, no March 31 ADM credit is permitted if the student is not counted on any school division's teacher register (i.e., if the student is a full-time college student but not yet a high school graduate).

Reporting Partial Full-Time Equivalent (FTE) Students

In certain cases, only partial full-time equivalent (FTE) students are to be included in March 31 ADM. Specifically, March 31 ADM credit is only counted for the portion of the year in which a student was included on the rolls.

Reporting students enrolled in a virtual program delivered by an approved Multi-Division Online Provider (MOP)

A student should be considered as part of a MOP if the virtual program delivers both the instruction and the curriculum by an approved MOP. Students who take virtual classes that are part of a division program that is internal to the division and that does not meet the definition of a MOP virtual program should be reported as MOP Flag = N.

Beginning Unadjusted March 31 ADM

When the MOP is a Third Party Vendor

Resident students who do not attend a brick and mortar school within the serving division and non-resident students in a virtual program delivered by an approved MOP will have an Active Code of V. Students who are residents of the serving division who also take classes at a brick and mortar school within the serving division and enrolled in a virtual program delivered by an approved MOP have an Active Code of A. Both resident and non-resident students of the virtual program delivered by an approved MOP will have a MOP Flag = Y.

School divisions that contract with virtual programs that include both the instruction and curriculum offered by an approved MOP but will report MOP students regardless of the number of students enrolled. The resident students taking virtual courses will have an Active Code of A or I as appropriate. The MOP flag will be Y.

When the MOP is a Virginia Public School Division

At this time, only York County, Chesterfield County and Loudoun County have division-established virtual programs that are approved MOPs. Both the resident and non-resident students of these divisions who are enrolled in these virtual programs are considered MOP. Use an Active Code of V for non-resident students and Active Code A or I as appropriate for resident students. The MOP Flag will be Y in both cases.

March 31 ADM Additions

Non-public School Pupils

Pursuant to §22.1-253.13:2 N., Code of Virginia, pupils who are either enrolled in a Non-public school or who receive home instruction **and** who attend classes in the public schools on a part-time basis may be included in March 31 ADM on a prorated basis. The current appropriation act allows any student who is enrolled in any mathematics, science, English, history, social science, vocational education, health education or physical education, fine arts or foreign language course to be counted in March 31 ADM. Each course taken by such a student will be counted in the funded March 31 ADM as 0.25 of a student, up to a cap of 0.5 of a student for March 31 ADM reporting (pursuant to Item 132 A. 1. d. of Chapter 3, 2012 Special Session I Acts of Assembly).

Students Enrolled in a Virtual Program Delivered by a Multi-Division Online Provider (MOP)

Students who are served by a virtual program delivered by an approved Multi-Division Online Provider (MOP). These include any students served by your division in a virtual program delivered by a MOP.

A Multi-Division Online Provider is:

- a private or nonprofit organization that enters into a contract with a local school board to provide online courses or programs through that school board to students who reside in Virginia both within and outside the geographical boundaries of that school division;
- a private or nonprofit organization that enters into contracts with multiple local school boards to provide online courses or programs to students in grades K through 12 through those school boards;
- a local school board that provides online courses or programs to students who reside in Virginia but outside the geographical boundaries of that school division (but ONLY IF more than 10 percent of the students enrolled in online courses are from outside of the division).

Postgraduate Pupils

Postgraduate students are pupils who remain in or return to school after receiving a diploma (Standard Diploma, Advanced Studies Diploma, or International Baccalaureate Diploma). **NOTE:** Special education students who do not receive one of the 3 recognized diplomas in the Standards of Accreditation (such non-recognized diplomas are the IEP diploma) may continue to be counted in March 31 ADM (if they return to school) until age 22 or until they receive an official diploma. School-age GED students who return for a regular diploma may also continue to be counted in March 31 ADM. Students who have received a GED, a General Advancement Diploma (GAD), Special Diploma, or a Modified Standard Diploma who are of school age should not be considered Postgraduate students. Students who have received a GED, a General Advancement Diploma, Special Diploma, or a Modified Standard Diploma, and are of school age and pursuing a Standard or Advanced Studies Diploma, should be included as part of March 31 ADM.

Pupils under Age 5

Pupils who were under the age of 5 as of September 30 of the current school year, including both non-disabled and disabled pupils, who are not enrolled in the regular Kindergarten program during the school year pursuant to §22.1-199 C., Code of Virginia (such as those enrolled in preschool, Headstart, and similar programs). However, do not include any students whose fifth birthday occurred between October 1 and December 31 of the current school year who are enrolled in the regular Kindergarten program after completing an appropriate readiness evaluation as provided in §22.1-199 C., Code of Virginia. Such students may be included in March 31 ADM upon enrollment in the regular Kindergarten program.

The Entry Date for these students must be their first day of regular kindergarten AFTER completing an appropriate readiness evaluation. The Aggregate Days Present and Aggregate Days Absent must reflect only the days in regular kindergarten AFTER an appropriate readiness evaluation has demonstrated that attendance in these programs would educationally benefit these children (§22.1-199 C., Code of Virginia).

A military child who falls under the provisions of the Interstate Compact, who is under the age of five as of September 30th, who registered for or enrolled in a regular Kindergarten program in the sending state prior to transfer, and who continues to enroll in a regular Kindergarten program in a Virginia school division (§22.1-360 Article IV D., Code of Virginia) **should not be deducted**.

Students who have not turned five years old by September 30 of the current school year, have NOT completed an appropriate readiness evaluation as provided in §22.1-199 C., Code of Virginia, and are enrolled in a regular kindergarten program should have an Kindergarten Readiness Assessment Flag of N.

Pupils for Whom the State Share of Tuition to a Private Special Education or Approved Public Program Was Funded with Comprehensive Services Act (CSA) Funds

Pupils enrolled in private nonsectarian residential or private nonsectarian day schools or approved public program for which the state share of tuition costs are funded with Comprehensive Services Act funds.

Pupils enrolled in private nonsectarian residential or private nonsectarian day schools or approved public program for which the state share of tuition costs are funded with Comprehensive Services Act funds **and** who attend classes in the public schools on a part-time basis may be included in March 31 ADM on a prorated basis.

If the state share of tuition to a private special education school is paid with Comprehensive Services Act funds, the CSA tuition code (7) is required. Do not use the paid tuition to a private institution code (3) for students placed in a private institution by CSA. Tuition code (3) should only be used for students whose tuition to a private special education program is paid with local funds only. Note: If you are serving a special education student who has an instructional aide funded by CSA, do not use tuition code (7). Since you are serving the student, no tuition code is required for such students.

Non-Contiguous State or Territory Outside of the United States and Foreign Exchange Students Charged with Tuition in Excess of the Local Share* (Including any Application or Processing Fees)

Students that do not reside in Virginia and are not from a contiguous state that grants the same attendance privileges to Virginia students.

Foreign exchange students should be included as an ADM deduction if the school division receives tuition in excess of the local share of operational costs for the student. Pursuant to §22.1-5 A.3., Code of Virginia, if a foreign exchange student has been approved by the local school board, and the school division receives no tuition or tuition less than or equal to the local share of operational costs, then the student should not be included as part of this deduction.

For example: A student from Florida (noncontiguous state) attending school in a school division in Virginia should be included in this deduction.

For example: A foreign exchange student attending school in a school division that receives tuition that is in excess of the local share of operational costs should be included in this deduction.

For example: A foreign exchange student whose attendance has been approved by the local school board and the school division receives tuition that is less than the local share of operational costs for the student should **NOT** be included in this deduction.
