Governor McDonnell & Board of Education Honor High-Performing Virginia Schools & School Divisions *2011 Virginia Index of Performance Awards Announced*

Governor Bob McDonnell and the Board of Education announced today that 728 schools and nine school divisions earned 2011 Virginia Index of Performance (VIP) awards for advanced learning and achievement. The incentive program, which was created by the Board of Education in 2007, recognizes schools and divisions that achieve excellence goals and far exceed minimum state and federal accountability standards.

“The schools and divisions earning these awards have high-achieving students and teachers and leaders who are committed to innovation and offering new opportunities for learning,” Governor McDonnell said. “I look forward to meeting some of the students and educators behind these success stories and congratulating them in person for their accomplishments.”

“The VIP awards program provides an incentive for schools and school divisions to set ambitious goals for raising student achievement and meeting the needs of diverse learners,” said Board of Education President Eleanor B. Saslaw.

The schools and school divisions earning 2011 VIP awards — which are based on student achievement and other performance indicators during 2009-2010 — include:

- 110 Virginia schools that earned the Governor’s Award for Educational Excellence;
- Eight school divisions and 323 schools that earned the Board of Education Excellence Award;
- One school division and 289 schools earned the Board of Education Competence to Excellence Award; and
- Six schools that earned the Board of Education Rising Star Award.

“These recognitions complement the commonwealth’s accountability program by recognizing performance that far exceeds minimum state and federal standards,” said Superintendent of Public Instruction Patricia I. Wright.

2011 Governor's Award for Educational Excellence

To qualify for the Governor’s Award for Educational Excellence, schools and school divisions must meet all state and federal achievement benchmarks for at least two consecutive years and achieve applicable excellence goals for elementary reading, enrollment in Algebra I by the eighth grade, enrollment in college-level courses, high school graduation, attainment of advanced diplomas, increased attainment of career and industry certifications, and participation in the Virginia Preschool Initiative. Schools and school divisions also earn bonus points for other performance measures, including the Governor’s Nutrition and Physical Activity Scorecard.

The 110 schools earning the Governor’s Award for Educational Excellence are as follows:
