EXECUTIVE SUMMARY

Introduction

The *Code of Virginia* (§ 22.1-279.3:1) requires school divisions statewide to submit data to the Virginia Department of Education (VDOE) on incidents of discipline, crime, and violence (DCV). School divisions began reporting such data in 1991. This annual report focuses primarily on DCV data submitted for school year 2009-2010, with selected comparisons to prior years. DCV data are used also to complete federal reports required by the *Gun-Free Schools Act of 1994* (GFSA, Sec. 14061) and the *Individuals with Disabilities Education Act* (IDEA). GFSA requires annual reporting of the number of students suspended or expelled statewide for possessing or bringing firearms on school property; IDEA contains requirements for reporting disciplinary actions involving students with disabilities. Section 22.1-279.3:1, *Code of Virginia*, and the *Gun-Free Schools Act*, Sec. 14061 are included in Appendix A of this report.

Virginia uses incident-based reporting consistent with federal standards. The reporting process employs a well-defined set of nearly 130 offense codes and data elements that are consistent with those recommended by the National Center for Education Statistics and the National Forum on Education Statistics. "Incidents" range in seriousness from criminal acts that result in law enforcement action to minor acts of misbehavior. A single incident may involve more than one offense; an incident may also involve multiple students and result in multiple disciplinary actions. This report focuses on numbers of incidents based on offenses and numbers of disciplinary outcomes.

The DCV data reporting process is a self-reporting system. School division superintendents are required to verify the accuracy of the data submitted to the VDOE. Readers are cautioned against making year-to-year comparisons without taking into account changes in reporting requirements. For example, the reporting criteria for the 2010 attendance data within this report reflects an amendment to the *Code of Virginia* §22.1-277(A), which states that "attendance data is only reported if it involves an expulsion." This requirement has caused a decline in attendance numbers. Readers are also cautioned against comparing schools and school divisions without taking into account local student conduct policies and data collection and reporting methods. Readers with questions about data reported by a particular school division are strongly urged to contact the school division directly. School divisions have specific information about how the data are collected and factors that may affect numbers reported. School divisions can also provide important information on the full array of local efforts to promote school safety and maintain school environments conducive to learning.

All data from the regional centers and programs including Governor's Schools, Special Education Centers/Programs, Technical and Career Centers, and Alternative Schools and Centers are part of the Annual Report as of 2007-2008.

Overview of All Incidents

This report focuses on the DCV data reported for the 2009-2010 school year and includes information submitted to the VDOE by all school divisions. Fall 2009 membership totaled 1,245,270 pupils in 1,991 schools and centers, representing a 0.79 percent increase in membership statewide since fall 2008. In the school year 2009-2010, a total of 266,198 incidents were reported (Table 1, p. 13).

The incidents of defiance, classroom/campus disruption, obscene language/gestures, disrespect, and disruptive demonstrations combined accounted for 55.51 percent of all incidents in 2009-2010. By contrast, all alcohol, drugs, and weapons offenses combined accounted for 2.74 percent of all incidents in 2009-2010.

The most frequently reported incidents were defiance [16.40% (43,655)], classroom/campus disruption [15.21% (40,493)], obscene language/gestures [8.51% (22,662)], disrespect [8.24% (21,930)], disruptive demonstrations [7.14% (19,016)], altercation [5.96% (15,870)], minor insubordination [4.96% (13,191)], other school violations [4.41% (11,732)], and electronic devices/cellular phones [4.17% (11,108)]. All incidents are also reported by Superintendents' regions in Appendix D.

Comparison of Incidents in 2009-2010 with 2008-2009 (Table 2, pp. 18-22)

In 2009-2010, there were 41,913 fewer required reporting incidents than reported in 2008-2009.

Comparison of the most frequently reported incidents reported in 2009-2010 with incidents reported in 2008-2009 shows a decline in incidents of attendance (-29,589), classroom/campus disruption (-3,172), disrespect (-2,323), other school violations (-1,268), bullying (-1,201) obscene language/gestures (-1,160), and minor insubordinations (-1,033). Incidents that were reported in 2009-2010 in comparison with incidents reported in 2008-2009 show an increase in incidents of defiance (+1,787), cellular phones (+952), inappropriate personal property (+130), possession of obscene/disruptive literature (+129) and drug use possession or sales/distribution of Schedule I or II (+122).

Incidents against Students (Table 3, p. 23)

A total of 13,956 incidents against students were reported, representing 5.24 percent of all incidents reported. The number of student incidents reported decreased from 15,313 incidents in 2008-2009 to 13,956 incidents in 2009-2010, representing a drop of 1,357 incidents (-8.86 %) in 2009-2010. Bullying constituted 39.96 percent (5,493) of incidents against students, followed by assaults/battery without a weapon [29.87% (4,169)], threat/intimidation [29.91% (4,174)], physical assault with weapon [(0.47% [66]), and sexual battery [0.30% (42)]. There were eight stalking incidents (0.06%), two aggravated sexual battery incidents (0.01%), one forcible sexual assault (0.01%), and one attempted sexual assault (0.01%) reported in 2009-2010.

Incidents against School Staff (Table 4. p.23)

A total of 3,268 incidents against school staff members were reported in 2009-2010, representing 1.23 percent of all incidents reported. There were 157 fewer incidents against staff reported than in 2008-2009. Threat/intimidation constituted 61.66 percent (2,015) of incidents against staff followed by assault/battery without a weapon [37.91% (1,239)]. There were 12 incidents of physical assault with weapons (0.37%) and two incidents of sexual battery (0.06%). No rapes, attempted rapes, or homicides of staff were reported in 2009-2010 (Table 4).

Weapons Incidents (Table 5, p.24)

A total of 2,758 weapons incidents were reported in 2009-2010, representing (1.04%) of all incidents reported. Knife possession (blade with more than 3 inches) represents 30.93 percent (853) and other weapons were under 25 percent [21.25% (586)] of all weapons incidents. Incidents reported as “other weapons” involved instruments or objects to inflict harm on another person that do not fall within other offense definitions. Possession of razor blades/box cutters/knife (less than 3 inches) constituted 18.56 percent (512) and possession of toy or look-alike guns constituted 12.26 percent (338) of weapons incidents. Constituting a little more than six percent of weapons incidents was possession of fireworks/firecrackers/stink bombs (168). BB guns constituted 4.42 percent (122), ammunition 3.05 percent (84), possession of chemical substance 0.91 percent (25), and handguns 1.05 percent (29).

An examination of the frequency of weapons incidents over the last two years (2008-2009 and 2009-2010) shows a marginal increase of 17 incidents or 0.62 percent. There were declines in seven different weapon categories and increases in six categories. Large declines in incidents were categories of possession of other weapons (-121) and knife possession (blade more than three inches) (-88). An increase was seen in possession of a toy gun or look-alike gun (+226). (Table 6, p.24).

Overall Disciplinary Outcomes (Table 7, p. 26)

Disciplinary outcomes reported for all incidents in 2009-2010 totaled 258,011, a decrease of 42,927 outcomes reported compared with 2008-2009. The majority of disciplinary actions involved short-term suspensions [70.33% (181,460)]. The next highest category [26.36% (68,001)] involved “other action” (coded “sanction 99”) that did not involve suspension or expulsion. Long-term suspension constituted 1.86 percent (4,788) of disciplinary outcomes and expulsion constituted only 0.36 percent (925) of disciplinary outcomes. Modified expulsions were reported 2,691 times, representing 1.04 percent of disciplinary outcomes. Modified expulsion occurs when a school board, in accordance with state law, modifies the expulsion of a student when “special circumstances” merit the imposition of a lesser penalty. Special education interim placements were made 146 times, constituting 0.06 percent of disciplinary outcomes.

ANNUAL REPORT 2009-2010

Decreases occurred in short-term suspensions (-20,870), actions other than suspensions or expulsions (-22,032), long-term suspensions (-148) and, expulsions (-248). However there was an increase in modified expulsions (+307) and special education interim placement (+64).

Disciplinary Outcomes for Alcohol, Drug, and Tobacco Offenses (Table 1, pp. 30-31)

A total of 10,385 disciplinary outcomes resulted from alcohol, drug, and tobacco offenses, representing 4.03 percent of all disciplinary actions. Compared to 2008-2009, there were 548 less disciplinary outcomes resulting from such offenses in 2009-2010; and they represented a greater proportion of all disciplinary actions. Of all disciplinary actions resulting from drug, alcohol, and tobacco offenses, 46.8 percent (4,860) were short-term suspensions, 24.16 percent (2,509) were modified expulsions, 4.09 percent (425) were expulsions, 19.32 percent (2006) were other disciplinary actions, and 4.62 percent (480) were long-term expulsions.

***Gun-Free Schools Act* Report (Table 15, p. 36)**

A total of 59 firearms incidents were reported in the 2009-2010 *Gun Free Schools Act* Report. A total of 66 incidents were reported in the previous year. Over one-half of the 2009-2010 incidents involved possession of a handgun [54.24% (32)], followed by possession of other firearms [16.95% (10)], projectile weapon [11.86% (7)] and five incidents of possession of a rifle/shotgun (8.47%). There were five incidents of possession of an explosive device at 8.47 percent of the total 59 incidents, 57.63 percent (34) were reported by high schools, 20.34 percent (12) were reported by junior high schools, and 22.03 percent (13) were reported by elementary schools.

Overview of Report

This report is organized into five major sections:

Section I. Background – Section I provides background information about statutory requirements for reporting discipline, crime, and violence (DCV) data, the reporting process and procedures, how DCV data are used, limitations of the data, and sources of additional related information.

Section II. Incidents Reported in 2009-2010 – Section II focuses on statewide incident data for 2009-2010, with selected comparisons to previous years. Included is an overview of all incidents reported and examinations of incidents against students, incidents against staff, and weapons incidents. Numerous tables and charts provide detailed information on incidents reported.

Section III. Disciplinary Outcomes – Section III focuses on disciplinary outcomes in 2009-2010. Included are an overview of all disciplinary outcomes and examinations of offenses resulting in short-term suspensions, in long-term suspensions, in expulsions, and in modified expulsions. Disciplinary outcomes for alcohol, tobacco, and other drug-related offenses and for weapons-related offenses are also reported.

Section IV. Violations Reported as Part of the *Gun-Free Schools Act* Requirements – Section IV focuses on firearm incidents that were reported by the Virginia Department of Education (VDOE) to the U.S. Department of Education (USED) as part of the *Gun-Free Schools Act* requirements.

Section V. Regional Data – Section V reports data for each of Virginia’s eight superintendents’ regions. For each region, there is a demographic profile and a summary of the most frequently reported offenses. Tables summarizing incidents are also included for each region and for school divisions within each region.

Section VI. Regional Centers and Programs - Section VI reports data for all regional centers and programs throughout Virginia. There are four categories of centers and/or programs. They are as follows: Governor’s Schools, Special Education Centers/Programs, Technical and Career Centers, and Alternative Education Centers/Programs.

Appendices provide supplementary information as follows:

- Appendix A** Excerpts of state and federal laws that require reporting of DCV data
- Appendix B** DCV offenses required to be reported in 2009-2010
Includes definitions, disciplinary reporting requirements, and laws and regulations on which reporting is based

I. BACKGROUND

Statutory Requirements for Reporting Incidents

The *Code of Virginia* (§ 22.1-279.3:1) requires school divisions statewide to submit data to the VDOE on incidents of discipline, crime, and violence. These incidents include those that occur on school property, on a school bus, or at a school-sponsored activity. Section 22.1-279.3:1, *Code of Virginia*, is included in Appendix A of this report.

Two federal laws also require reporting of certain offenses. The *Gun-Free Schools Act of 1994* (GFSA, Sec. 14061) requires all states that receive federal funds to report annually the number of students suspended or expelled statewide for possessing or bringing firearms on school property. The *Individuals with Disabilities Education Act*, known as *IDEA*, contains requirements for reporting disciplinary actions involving students with disabilities. An excerpt of key provisions of the *GFSA* is included in Appendix A of this report.

Superintendent's Memo 52, December 21, 2006, states that the federal Office of Special Education Programs (OSEP) requests data to be reported for children with disabilities subject to disciplinary removal starting with the school year 2006-2007. This data involved in-school suspension for disabled students only. That data is not included in this report.

DCV Reporting

Understanding “Incidents,” “Offenses,” and “Disciplinary Outcomes”

DCV data are collected using an incident-based reporting system that is organized around events that may involve one or more offenses, may involve one or more students, and may result in multiple disciplinary outcomes. The following are key terms used in this report:

An **incident** is an *event* that may involve one or more offenses. An incident also may involve one or more students and may result in one or more disciplinary outcomes. Tables 1-6 in Section II and all tables in Section V illustrate incident counts by unduplicated offense codes.

An **offense** is the problem *behavior* exhibited by the student(s). Nearly 130 offense codes are used to report different behaviors. Each offense has a unique code and a specific definition. Offense definitions and codes are included in this report in Appendix B.

ANNUAL REPORT 2009-2010

A **disciplinary outcome** is the *sanction* imposed on a student for his misconduct. Types of outcomes reported are short-term suspension, long-term suspension, expulsion, modified expulsion, other sanctions, and special education interim placements. Tables 7-18 in Section III illustrate disciplinary counts. Disciplinary counts are number of sanctions determined by offense.

In 2009-2010, the overwhelming majority of incidents involved a single offense. For incidents that involve more than one offense, only the most serious offense is reported. For example, an incident involving two students fighting where one student is found in possession of cigarettes would be shown in this report as an incident of fighting. The incident would typically result in two disciplinary outcomes – one for each of the two students. All offenses that are required to be reported regardless of disciplinary outcome may be found in Appendix B. Within the chart of offenses (Appendix B), the disciplinary reporting requirement for each offense is noted.

The Reporting Process

The process of collecting and reporting DCV data begins within individual schools when incidents occur that violate the local code of student conduct. It is the responsibility of the school administrator to determine the appropriate offense code to be reported, based on the offense definition. Information is recorded about the incident, the student offenders, and the disciplinary outcomes.

The school division is responsible for reporting DCV data to the VDOE. School divisions choose to submit DCV data using one of two available methods: (1) submission of a tab delimited electronic file, or (2) use of a Web-based data submission application. School divisions using the first method collect and maintain discipline data in their own information systems and upload an electronic file to the VDOE. School divisions using the second method may enter school division and school level data manually and directly into the VDOE database using the Web-based data collection application. A school division may select and use only one of the two methods available for data submission.

All school divisions have a designated DCV Coordinator who serves as the primary point of contact on matters related to DCV reporting. The DCV Coordinator serves as the data “steward,” ensuring that the process of data collection within the school division and the process of reporting data to the VDOE operate well. Many school divisions have established teams that regularly review data being collected to detect and correct errors and to use the data in decision making related to discipline policy and school programming. There is a “verification” process whereby the school superintendent signs off that the information submitted is accurate.

The VDOE provides detailed instructions for data submission and ongoing technical assistance through workshops, Web-based conferencing, telephone and e-mail consultation, and site visits when requested. Additionally, numerous edit checks have been created to assist school divisions in identifying and correcting errors in data before final submission. The VDOE works on an ongoing basis to improve the DCV data

collection process and monitors changes in state and federal laws and regulations, as well as best practice standards, to ensure Virginia's compliance with all reporting requirements.

Virginia's reporting process employs a well-defined set of offense codes and data elements that are consistent with recommendations of the National Center for Education Statistics and the National Forum on Education Statistics.¹ All reporting complies with state and federal confidentiality laws that prohibit disclosure of information on individual students. All offenses, including their definitions and codes, used in 2009-2010 are listed in Appendix B.

Student Conduct Policy and DCV Reporting

Virginia law requires school boards to develop student conduct policies, typically referred to as "codes of conduct."² Although local policies must be consistent with state and federal laws, such as the *Gun-Free Schools Act*, they are developed by local school boards and reflect differences in local concerns, priorities, and perspectives. These differences can affect both how certain conduct is classified (offense codes used) and the disciplinary sanctions imposed (disciplinary outcomes reported). Administrative discretion also contributes to differences in the classification of a behavior and the resulting disciplinary action.

Examples of how differences in student conduct policy and administrative discretion can affect reporting can be seen in two hypothetical incidents involving one student shoving another student. In the first incident, a sixth grader shoves another sixth grader while they are walking to the school cafeteria. In the second incident, a tenth grader shoves another tenth grader in the hallway during a change of classes. Although the behaviors are identical, the local student conduct policies and administrative discretion could result in different disciplinary outcomes. The incident involving the sixth grader could be viewed as an altercation and, unless it resulted in a suspension or expulsion, would not be required to be reported to the VDOE. The incident involving the tenth grader could be deemed a fight or even an assault, depending on the circumstances. The altercation incident would be reported only if it resulted in a suspension; the assault offense would be required to be reported to the VDOE regardless of disciplinary sanction. In both examples, local student conduct policies and administrative discretion would affect reporting.

Suspensions and Expulsions

Virginia law prescribes minimum due process procedures for the suspension and expulsion of students. Definitions based on Virginia law are as follows:

¹ *Safety in Numbers: Collecting and Using Incident Data to Make a Difference in Schools*. U.S. Department of Education, National Center on Education Statistics, National Forum on Education Statistics. NCEES 2002-312. Washington, DC: 2002.

² See § 22.1-279.6.B. of the *Code of Virginia*.

ANNUAL REPORT 2009-2010

Suspension is defined as the temporary denial of a student's attendance at school. The duration of a short-term suspension is ten days or less. A long-term suspension is defined as more than ten days but less than 365 calendar days (§ 22.1-277.01, *Code of Virginia*).

Expulsion is defined as the permanent denial of a student's attendance at school. A student who is expelled by a school board is ineligible for readmission for 365 calendar days after the date of the expulsion (§ 22.1-277.01, *Code of Virginia*).

Suspension or expulsion, or both, may be used as disciplinary measures when local school authorities determine that such actions meet the following criteria:

- Appropriate disciplinary sanction for a violation of the student code of conduct
- Appropriate to prevent disruption of the school's learning environment, programs, or activities
- Appropriate to ensure the safety and welfare of the student, other students, and/or staff
- Appropriate to maintain a safe, drug-free, and orderly school environment conducive to learning

School board policies may identify criteria relating to suspensions and expulsions that are more stringent than the criteria listed above, as long as they do not violate other state and federal laws. Removal of students with disabilities must be in accordance with state and federal laws and regulations. A local policy may permit or require students who are long-term suspended or expelled to attend an alternative education program.

Although there are uniform requirements and procedures governing the suspension and expulsion of students, local student conduct policies vary. These differences affect the way that offenses and disciplinary actions are reported. *Student Conduct Policy Guidelines* adopted by the Virginia Board of Education are available from the VDOE and may be downloaded from

http://www.doe.virginia.gov/support/student_conduct/index.shtml

Although there are uniform requirements and procedures governing the suspension and expulsion of students, local student conduct policies vary, and these differences affect the way that offenses and disciplinary actions are counted and reported.

Learning More about DCV Reporting

Safe Schools Information Resource

The Safe Schools Information Resource (SSIR) Web site was established by the Virginia Department of Education (VDOE) (<https://p1pe.doe.virginia.gov/pti/>) to provide user-friendly access to the discipline, crime, and violence (DCV) data that are collected yearly from all Virginia school divisions and all regional centers and programs. This Web site makes DCV data available for the most recent five years. Reports may be generated in various categories according to the user's selections.

ANNUAL REPORT 2009-2010

SSIR charts and reports are designed to provide an overview and trends over time of the information available. Each report area provides a “Big Picture” view and allows “drilling” down in the data. There are six areas of information available via SSIR:

- Information about *Incident Frequency* in schools
- Information about *Offenses Frequency* in schools
- Information about *Student Offenders*

Offense and Incident types reported in SSIR are color coded and grouped into offense categories. These offense categories are aligned according to severity of offense. There are nine categories:

- Weapons Related Offenses
- Offenses Against Student
- Offenses Against Staff
- Offenses Against Persons
- Alcohol, Tobacco, and Other Drugs
- Property Offenses
- Disorderly Disruptive Behavior
- Technology Offense
- Other Offenses

Use of DCV Data for School Report Cards

The *Virginia School Report Card* provides information on student achievement, accreditation, safety, and attendance for the state as a whole, for school divisions, and for individual schools. The *Report Card* enables parents and the general public to follow Virginia’s progress in achieving the goals of the *No Child Left Behind Act of 2001* and can be accessed on the VDOE Web site at

http://www.doe.virginia.gov/statistics_reports/school_report_card/index.shtml.

Users of the Virginia School Report Card Web site use the nine categories referenced in the VDOE Safe Schools Information Resource (SSIR) referenced above. All DCV data for the most recent five years are available in a variety of reports that can be tailored to SSIR user selections from this Web site.

Use of DCV Data to Identify Persistently Dangerous Schools

In Virginia, a “persistently dangerous school” is one that exceeds a threshold of offense incidents over a three year period as established by the Virginia Board of Education’s *Persistently Dangerous Schools Identification Process and Criteria*

(http://www.doe.virginia.gov/administrators/superintendents_memos/2004/adm051.html).

ANNUAL REPORT 2009-2010

A school that exceeds its established threshold for three consecutive years is designated as a “persistently dangerous school.” (In year one the school is in “caution” status and in year two the school is “on probation.” Schools so designated must develop corrective action plans and are subject to graduated interventions.

Each state receiving funds under the federal *No Child Left Behind Act of 2001* is required to establish and implement a statewide policy requiring that a student attending a persistently dangerous school be allowed to attend a safe school. The Virginia Board of Education’s “Unsafe School Choice Option” policy was adopted in May 2002. Virginia’s “Unsafe School Choice Option” policy can be accessed on the Virginia Department of

Education Web site

http://www.doe.virginia.gov/administrators/superintendents_memos/2003/inf086.html).

Offense codes and the points system employed to identify persistently dangerous schools are listed in Appendix C.

Limitations of Data

Limitations of data presented in this report arise from three primary sources: (1) changes in reporting requirements across time; (2) variations in local methods of collecting and managing data; and (3) variations in local student conduct policies and programming across school divisions.

Changes in Reporting Requirements

Because of year-to-year changes in reporting requirements, readers are advised to use great caution in comparing 2009-2010 data to data reported for previous years. Readers should take into consideration changes in reporting requirements when examining year-to-year data.

A number of changes in DCV reporting requirements and refinements in the reporting procedures have occurred since school divisions first began reporting data to the VDOE in 1991. Numerous reporting changes have been made in response to amendments to federal and state laws that have affected reporting requirements. Other changes have been made to bring Virginia’s reporting process in line with federal standards and to make better use of available technology. Because of the numerous changes in reporting requirements and procedures, caution is advised in comparing 2009-2010 data to data from previous years.

Variations in Local Methods of Collecting and Managing Data

Although school division superintendents verify the accuracy of DCV data submitted to the VDOE, there are variations in local methods of collecting and managing data that may affect the data. Variations are inherent in the process. Readers are cautioned against making comparisons between and among school divisions without taking into account local variations in the internal methods used to collect, code, and manage data. Readers

ANNUAL REPORT 2009-2010

interested in examining data from a particular school division should talk with school division administrators to learn the “story behind the numbers.” Although this report summarizes the numbers reported by school divisions, it does not provide explanations for local information.

Variations in Local Student Conduct Policies and Programming

In addition to variations in local methods of collecting and managing data, variations in student conduct policies and in school programming across school divisions and across schools can affect DCV data reported. Local codes of student conduct can affect how certain conduct is classified (offense codes used) and the disciplinary sanctions imposed (disciplinary outcomes reported). The availability of disciplinary options (e.g., in-school suspension, Saturday detention), offender intervention programs, and alternative programs can influence the final disciplinary outcomes employed and reported. Readers are cautioned against making comparisons between and among school divisions without taking into account differences in student conduct policies and related programming.

A Note to Readers

This report makes extensive reference to “offenses” and to “offense codes.” The reader should review and make use of information about the definitions and classifications of offenses provided in Appendix B. Familiarity with offense definitions will greatly enhance the reader’s understanding of the data reported.

II. INCIDENTS REPORTED IN 2009-2010

Statewide Totals

The DCV data reported in 2009-2010 is based on submission from all school divisions within the Commonwealth of Virginia. Data for all regional centers and programs will be presented in Section VI.

Defiance, classroom/campus disruption, obscene language/gestures, disrespect, and disruptive demonstrations combined accounted for 55.51 percent of all incidents in 2009-2010. All alcohol, drugs, and weapons offenses combined accounted for 2.74 percent of all incidents in 2009-2010.

Table 1 reports the frequency of all types of incidents. Table 2 compares incidents in 2009-2010 with incidents in 2008-2009.

Changes in Frequency of Incidents

Behavior incidents (classroom/campus disruption, defiance, disrespect, obscene language/gestures, disruptive demonstrations, minor insubordination, and obscene/disruptive literature) constitute 60.72 percent (161,629) of the total 266,198 incidents. Incidents involving behavior in 2009-2010 declined by 3.93 percent overall compared with incidents involving behavior in 2008-2009.

All alcohol, drugs, and weapons offenses combined accounted for 2.74 percent of all incidents in 2009-10 and 4.42 percent of all incidents in 2008-09.

III. DISCIPLINARY OUTCOMES

Disciplinary Outcomes for All Incidents

Disciplinary outcomes reported for all incidents in 2009-2010 totaled 258,011, a decrease of 42,927 compared with the 300,938 reported in 2008-2009. The majority of disciplinary actions involved short-term suspensions [70.33% (181,460)]. A total of [26.36% (68,001)] involved other disciplinary actions, and [1.86% (4,788)] involved long-term suspensions. Modified expulsions, expulsions, and special education interim placements constituted less than two percent each. Types of disciplinary actions for all violations are reported below in Table 7.

Disciplinary Outcomes for Most Frequently Reported Incidents

This section examines disciplinary outcomes resulting from the most frequently reported incidents. To reiterate the relationship of incidents and disciplinary outcomes, a single incident may involve multiple students and result in multiple disciplinary outcomes. For example, a fight involving four students and resulting in four suspensions would be reported as a single incident with four offenders and four disciplinary outcomes.

Short-Term Suspensions

Most (84.48%) of the 181,460 short-term suspensions in 2009-2010 resulted from the twelve most frequently reported offenses. A majority of the offenses involved behavioral disruptions. The most frequently reported offenses resulting in short-term suspensions are summarized in Table 8.

Long-Term Suspensions

Most (73.02%) of the 4,788 long-term suspensions in 2009-2010 resulted from the fifteen most frequently reported offenses. The most frequently reported offense resulting in long-term suspension was assault/battery against student with no weapon at 9.00 percent. The most frequently reported offenses resulting in long-term suspensions are summarized in Table 9.

Expulsions

Most (84.00%) of the 925 expulsions in 2009-2010 resulted from the nineteen most frequently reported offenses. Use/possession of Schedule I or II Drugs was the most frequently reported offense (19.46%) of all expulsions. Schedule I and II Drugs include substances such as marijuana, anabolic steroid, and LSD. The second most frequent cause for expulsion was Sale/Distribution of Schedule I or II Drugs resulting in 9.19 percent of expulsions. The most frequently reported offenses resulting in expulsion are summarized in Table 10.

Disciplinary Outcomes for Alcohol, Tobacco, and Drug Offenses

This section focuses on disciplinary outcomes resulting from alcohol, drug, and tobacco offenses. In 2009-2010, a total of 10,385 disciplinary outcomes resulted from such offenses representing 4.03 percent of all 258,011 disciplinary actions. In 2008-2009, a total of 10,935 disciplinary outcomes resulted from alcohol, drug, and tobacco offenses, representing 3.63 percent of all 300,938 disciplinary actions.

The number of disciplinary actions for drug offenses increased by 89 disciplinary actions in 2009-2010. However, the number of tobacco offenses decreased by 592 disciplinary actions, and disciplinary actions for alcohol decreased by 47 disciplinary actions in 2009-2010.

All disciplinary outcomes resulting from alcohol, drug, and tobacco violations are summarized in Table 11.

Modified Expulsions Resulting from Drug Violations

Section 22.1-277.08 of the *Code of Virginia* requires school boards to expel students who bring a controlled substance, imitation controlled substance, or marijuana onto school property to a school-sponsored event. State law, however, permits a school board to establish policies and related guidelines for determining whether “special circumstances” exist that would allow for another disciplinary action, based on the facts of a particular situation. School boards are authorized to consider factors listed in § 22.1-277.06 of the *Code of Virginia*, in determining “special circumstances,” in particular cases that would justify another disciplinary action. The disciplinary action “modified expulsion” is reported when a school board expels a student in accordance with state law, but then exercises its authority to modify the expulsion.

Modified expulsions for drug and weapons offenses in 2008-2009 are reported in Table 13. In 2008-2009, there were a total of 1,994 modified expulsions resulting from drug-related violations. There were 43 modified expulsions resulting from weapons offenses in 2008-2009.

Modified expulsions for drug and weapons offenses in 2009-2010 are reported in Table 12. In 2009-2010, there were a total of 2,260 modified expulsions resulting from drug-related violations. There were 41 modified expulsions resulting from weapons offenses in 2009-2010 resulting in a total of 2,301 modified expulsions.

Disciplinary Outcomes for Weapons Offenses

This section focuses on disciplinary outcomes resulting from weapons offenses. A total of 2,915 disciplinary outcomes resulted from weapons offenses, representing 1.13 percent of all 258,011 disciplinary actions reported in 2009-2010. A total of 2,045 disciplinary outcomes were short-term suspensions, representing 70.15 percent of all disciplinary outcomes for weapons offenses. A total of 481 were long-term suspensions, representing 16.50 percent of all disciplinary outcomes for weapons offenses. A total of 134 were actions other than suspensions or expulsions, representing 4.60 percent of all disciplinary outcomes for weapons offenses. A total of 131 were expulsions, representing 4.49 percent of all disciplinary outcomes for weapons offenses. A total of 90 disciplinary outcomes were modified expulsions, representing 3.09 percent of all disciplinary outcomes for weapons offenses. All disciplinary outcomes resulting from weapons offenses are summarized in Table 14.

IV. VIOLATIONS REPORTED AS PART OF *GUN-FREE SCHOOLS ACT* REQUIREMENTS

About *Gun-Free Schools Act* Reporting

Firearms violations required to be reported to the U.S. Department of Education as part of *Gun-Free Schools Act (GFSA)* are as follows:

1. "Possession of a handgun" (WP1)
2. "Possession of a rifle/shotgun" (WP2)
3. "Possession of other firearm" (WP8)
4. "Possession of other weapon designed to be a projectile" (WP4)
5. "Possession of an explosive device" (WP6)
6. "Use of an explosive device" (WP7)

Please refer to Appendix B pp. 86—113 for definitions of these offense codes.

Under *GFSA*, Virginia reports the six violations listed above by grade level. For purposes of *GFSA* reporting, grade levels are defined as follows:

Elementary school: Pre-Kindergarten, Kindergarten, and grades 1 through 6
Junior high school: Grades 7 through 9
High school: Grades 10 through 12, ungraded, and post-graduate

Firearm Incidents Reported as Part of *Gun-Free Schools Act* Report

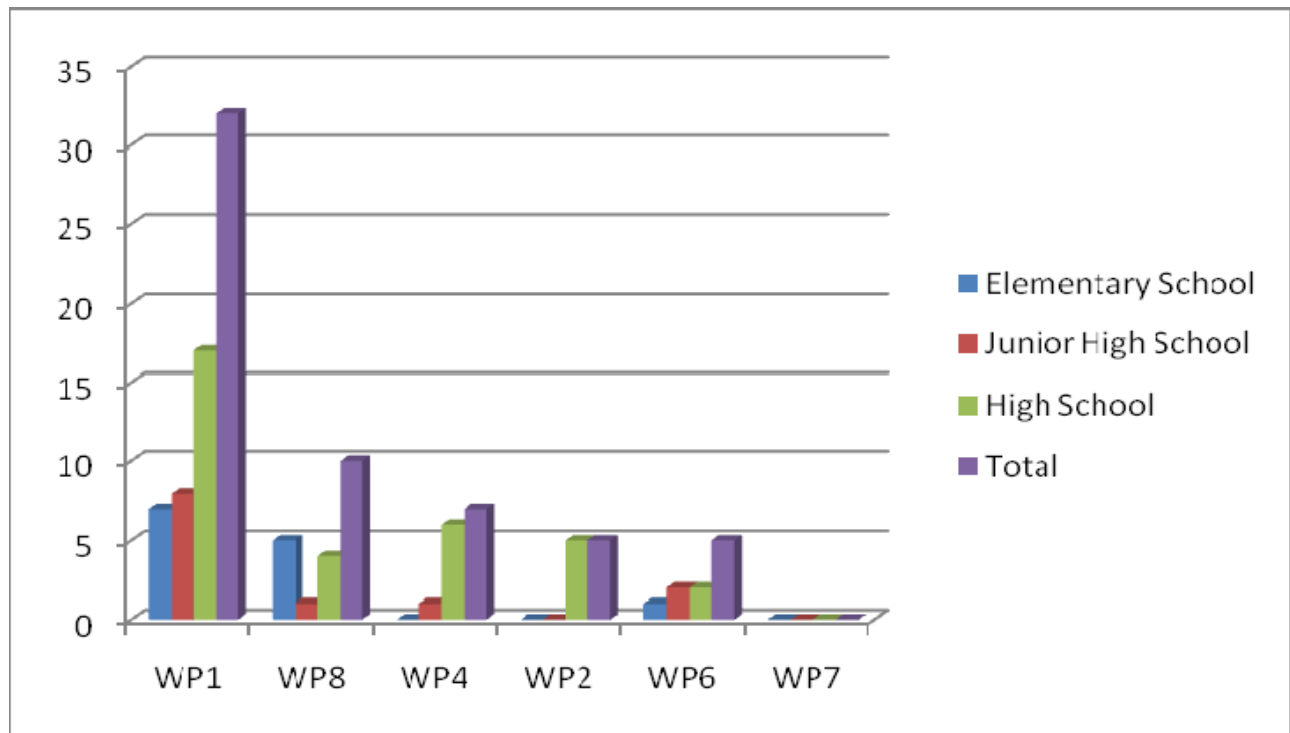

A total of 59 firearms incidents were reported in the 2009-2010 *Gun Free Schools Act* Report. A total of 66 incidents were reported in the previous year. Over one-half of the 2009-2010 incidents involved possession of a handgun [54.24% (32)], followed by possession of other firearms [16.95% (10)], possession of a projectile weapon [11.86% (7)] and five incidents of possession of a rifle/shotgun [(8.47% (5))]. There were five incidents of possession of an explosive device at 8.47 percent. Of the total 59 incidents, 57.63 percent (34) were reported by high schools, 20.34 percent (12) were reported by junior high schools, and 22.03 percent (13) were reported by elementary schools (Table 15). An excerpt of key provisions of the *Gun-Free Schools Act* is included in Appendix A.

REGIONAL DATA

In this section, data results are presented for each of the Superintendents' Regional Study Groups and for each school division within the regions. For each region, the report includes demographic data; data on the most frequent incidents of discipline, crime, and violence; and data for 29 major offense codes organized by school division. Table 16 lists specific offense codes in the 29 major offense categories that are reported in this section in Table 16.

ANNUAL REPORT 2009-2010

Region I Incidents of Discipline, Crime, and Violence, 2009-2010

In Region I, a total of 64,116 incidents were reported in 2009-2010. The four most frequently reported offenses were defiance (18.61%), disruption (17.92%), disruptive demonstrations (9.61%), and language/gestures (7.73%). The remaining offenses in the top ten represent less than eight percent of all incidents within Region I. The ten types of incidents most frequently reported in Region I are summarized in the table below.

VI. Regional Centers and Programs

The regional centers and programs have submitted DCV data since 2004-2005. This is the third year that the data has appeared in the *Annual Report of Discipline, Crime, and Violence*. Only those regional centers that had incidents of discipline, crime or violence submitted data. The data are presented in Tables 25 through 29.

**Appendix A. Applicable State
and
Federal Laws**

Code of Virginia

§ 22.1-279.3:1. Reports of certain acts to school authorities.

A. Reports shall be made to the division superintendent and to the principal or his designee on all incidents involving (i) the assault or assault and battery, without bodily injury, of any person on a school bus, on school property, or at a school-sponsored activity; (ii) the assault and battery which results in bodily injury, sexual assault, death, shooting, stabbing, cutting, or wounding of any person on a school bus, on school property, or at a school-sponsored activity; (iii) any conduct involving alcohol, marijuana, a controlled substance, imitation controlled substance, or an anabolic steroid on a school bus, on school property, or at a school-sponsored activity, including the theft or attempted theft of student prescription medications; (iv) any threats against school personnel while on a school bus, on school property or at a school-sponsored activity; (v) the illegal carrying of a firearm, as defined in § 22.1-277.07, onto school property; (vi) any illegal conduct involving firebombs, explosive materials or devices, or hoax explosive devices, as defined in § 18.2-85, or explosive or incendiary devices, as defined in § 18.2-433.1, or chemical bombs, as described in § 18.2-87.1, on a school bus, on school property, or at a school-sponsored activity; (vii) any threats or false threats to bomb, as described in § 18.2-83, made against school personnel or involving school property or school buses; or (viii) the arrest of any student for an incident occurring on a school bus, on school property, or at a school-sponsored activity, including the charge therefore.

B. Notwithstanding the provisions of Article 12 (§ 16.1-299 et seq.) of Chapter 11 of Title 16.1, local law-enforcement authorities shall report, and the principal or his designee and the division superintendent shall receive such reports, on offenses, wherever committed, by students enrolled at the school if the offense would be a felony if committed by an adult or would be a violation of the Drug Control Act (§ 54.1-3400 et seq.) and occurred on a school bus, on school property, or at a school-sponsored activity, or would be an adult misdemeanor involving any incidents described in clauses (i) through (viii) of subsection A.

C. The principal or his designee shall submit a report of all incidents required to be reported pursuant to this section to the superintendent of the school division. The division superintendent shall annually report all such incidents to the Department of Education for the purpose of recording the frequency of such incidents on forms that shall be provided by the Department and shall make such information available to the public. A division superintendent who knowingly fails to comply or secure compliance with the reporting requirements of this subsection shall be subject to the sanctions authorized in § 22.1-65. A principal who knowingly fails to comply or secure compliance with the reporting requirements of this section shall be subject to sanctions prescribed by the local school board, which may include, but need not be limited to, demotion or dismissal. The principal or his designee shall also notify the parent of any student involved in an incident required pursuant to this section to be reported, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice shall relate to only the relevant student's involvement and shall not include information concerning other students. Whenever any student commits any reportable incident as set forth in this section, such student shall be required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or his designee. Prevention and intervention activities shall be identified in the local school division's drug and violence prevention plans developed pursuant to the federal Improving America's Schools Act of 1994 (Title IV - Safe and Drug-Free Schools and Communities Act).

ANNUAL REPORT 2009-2010

D. Except as may otherwise be required by federal law, regulation, or jurisprudence, the principal shall immediately report to the local law-enforcement agency any act enumerated in clauses (ii) through (vii) of subsection A that may constitute a criminal offense and may report to the local law enforcement agency any incident described in clause (i) of subsection A.

E. A statement providing a procedure and the purpose for the requirements of this section shall be included in school board policies required by § 22.1-253.13:7. The Board of Education shall promulgate regulations to implement this section, including, but not limited to, establishing reporting dates and report formats.

F. For the purposes of this section, "parent" or "parents" means any parent, guardian or other person having control or charge of a child.

G. This section shall not be construed to diminish the authority of the Board of Education or to diminish the Governor's authority to coordinate and provide policy direction on official communications between the Commonwealth and the United States government. (1981, c. 189; 1990, cc. 517, 797; 1991, c. 295; 1994, cc. 265, 285; 1995, cc. 759, 773; 1996, cc. 916, 964; 1999, c. 970; 2000, cc. 79, 611, § 22.1-280.1; 2001, cc. 688, 820; 2002, c. 388; 2003, cc. 899, 954; 2004, cc. 517, 542, 939, 955.)

Federal *Gun-Free Schools Act*, Section 14061

“(a) Short Title.--This section may be cited as the ‘Gun-Free Schools Act of 1994’.

“(b) Requirements.--

“(1) In general.--Except as provided in paragraph (3), each State receiving Federal funds under this Act shall have in effect a State law requiring local educational agencies to expel from school for a period of not less than one year a student who is determined to have brought a weapon to a school under the jurisdiction of local educational agencies in that State, except that such State law shall allow the chief administering officer of such local educational agency to modify such expulsion requirement for a student on a case-by-case basis.

“(2) Construction.--Nothing in this title shall be construed to prevent a State from allowing a local educational agency that has expelled a student from such a student’s regular school setting from providing educational services to such student in an alternative setting.

“(3) Special rule.--

“(A) Any State that has a law in effect prior to the date of enactment of the Improving America’s Schools Act of 1994 which is in conflict with the not less than one year expulsion requirement described in paragraph (1) shall have the period of time described in subparagraph (B) to comply with such requirement.

“(B) The period of time shall be the period beginning on the date of enactment of the Improving America’s Schools Act and ending one year after such date.

“(4) Definition.--For the purpose of this section, the term ‘weapon’ means a firearm as such term is defined in section 921 of title 18, United States Code.

“(c) Special Rule.--The provisions of this section shall be construed in a manner consistent with the Individuals with Disabilities Education Act.

“(d) Report to State.--Each local educational agency requesting assistance from the State educational agency that is to be provided from funds made available to the State under this Act shall provide to the State, in the application requesting such assistance--

“(1) an assurance that such local educational agency is in compliance with the State law required by subsection (b); and

“(2) a description of the circumstances surrounding any expulsions imposed under the State law required by subsection (b), including--

“(A) the name of the school concerned;

“(B) the number of students expelled from such school; and

“(C) the type of weapons concerned.

“(e) Reporting.--Each State shall report the information described in subsection (c) to the Secretary on an annual basis.

“(f) Report to Congress.--Two years after the date of enactment of the Improving America’s Schools Act of 1994, the Secretary shall report to Congress if any State is not in compliance with the requirements of this title.

INFORMATIONAL

TO: Division Superintendents

FROM: Jo Lynne DeMary
Superintendent of Public Instruction

SUBJECT: Unsafe School Choice Option: Identification of
Persistently Dangerous Schools

The federal *No Child Left Behind Act of 2001*, at Title IX, Section 9532 requires each state receiving funds from the act to establish and implement a statewide Unsafe School Choice Option Policy. Specifically, the requirement states:

SEC. 9532. UNSAFE SCHOOL CHOICE OPTION

(a) *UNSAFE SCHOOL CHOICE POLICY- Each State receiving funds under this Act shall establish and implement a statewide policy requiring that a student attending a persistently dangerous public elementary school or secondary school, as determined by the State in consultation with a representative sample of local educational agencies, or who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary school or secondary school that the student attends, be allowed to attend a safe public elementary school or secondary school within the local educational agency, including a public charter school.*

(b) *CERTIFICATION- As a condition of receiving funds under this Act, a State shall certify in writing to the Secretary that the State is in compliance with this section.*

The Virginia Board of Education's statewide policy, adopted May 23, 2002, on students attending a persistently dangerous public elementary school or secondary school or becoming victims of a violent criminal offense while in or on the grounds of a public elementary school or secondary school, is to provide those

ANNUAL REPORT 2009-2010

students with the opportunity to attend a safe public elementary school or secondary school within the local educational agency.

The Board of Education on March 26, 2003, reviewed a proposal for the procedure and criteria to identify persistently dangerous schools. On April 18, Informational Superintendent's Memorandum No. 65 provided a copy of this proposal, called *Persistently Dangerous Schools, Identification Process and Criteria under the No Child Left Behind Act of 2001*.

At its April 29, 2003, meeting, the Board approved the proposal with minor editorial changes and the addition of criteria that become effective with the 2003-2004 school year.

The approved plan contains the following changes:

- The terms for some incidents have been changed to align with the definitions for these offenses provided in the 2002-2003 *Annual Report on Discipline, Crime, and Violence*. Specifically, the terms "rape and attempted rape" have been replaced with "sexual assault offenses."
- Effective with the 2003-2004 school year, three incidents have been added to the criteria: "aggravated sexual battery," "malicious wounding without a weapon," and "illegal possession of controlled drugs and substances with intent to sell or distribute."

The process for identifying schools remains the same as described in the proposal, with the use of data on incidents to be applied as follows:

Data collected for the 1999-2000 school year and reported in the *Annual Report on Discipline, Crime, and Violence* will be used as baseline data for determining whether there are persistently dangerous schools. Since the schools must be identified for the first time by July of 2003, the first round of school identification will use available data on reported incidents from the 1999-2000, 2000-2001, and 2001-2002 annual reports. These incidents include homicide, sexual assault offenses, and use of a bomb or explosive device; assault with a firearm or other weapon, actual and attempted robbery, and kidnapping/abduction; and illegal possession of a handgun, rifle/shotgun, projectile weapon, bomb, or other firearms.

ANNUAL REPORT 2009-2010

Beginning with the school year 2003-2004, the *Annual Report on Discipline, Crime and Violence* will be modified to add certain incidents that are felonies and to clarify definitions of these incidents for separate reporting of their occurrence. These incidents are "malicious wounding without a weapon," "aggravated sexual battery," and "illegal possession of controlled drugs and substances with intent to distribute or sell." The crimes will be added to the criteria for identification of persistently dangerous schools when the data are collected for the report.

The Virginia Board of Education's established thresholds of incidents per year will be used to identify a persistently dangerous school over a consecutive three-year period. A copy of the approved plan is attached.

Data provided by school divisions for the *Annual Report on Discipline, Crime, and Violence* for the past three years is currently being reviewed. Should your division have a school that is identified as being "Cautioned," "On Probation," or "Persistently Dangerous," you will be contacted prior to June 30, 2003.

SUPTS. MEMO NO. 52
December 21, 2006

ADMINISTRATIVE

TO: Division Superintendents

FROM: Billy K. Cannaday, Jr.
Superintendent of Public Instruction

SUBJECT: *2006-2007 Discipline, Crime, and Violence Report*
Collection of New In-School Suspension Data for
Special Education Students

The purpose of this memo is to provide administrative guidance for collecting new data on in-school suspensions for special education students for the 2006-2007 school year. Training regarding this requirement was provided to school division staff who work with the *Discipline, Crime, and Violence Report* through eight regional workshops and two meetings of the SASI Users Group during the fall.

The data are being requested because of new reporting requirements imposed by the Office of Special Education Programs (OSEP), United States Department of Education. Specifically, data must be reported for children with disabilities subject to disciplinary removal for the school year 2006-2007.

In-school suspension is defined as those instances in which a child is temporarily removed from his/her regular classroom(s) for disciplinary purposes but remains under the direct supervision of school personnel. Direct supervision means school personnel are physically in the same location as the students under their supervision.

We ask that school divisions begin collecting new in-school suspension data for special education students starting January 1, 2007, or as soon thereafter as is feasible. In-school suspensions must be reported even if there were no reportable offenses. The sanction code of 01 will be used for reporting in-school suspension. The number of days of the in-school suspension must also be reported. A half day in-school suspension will be reported as one day.

An addendum to the *Discipline, Crime, and Violence Comprehensive User Guide* includes specific information about the new reporting requirements. The addendum may be accessed at

Superintendent's Memo #119-10

**COMMONWEALTH of VIRGINIA
Department of Education**

May 18, 2010

TO: Division Superintendents

FROM: Patricia I. Wright, Superintendent of Public Instruction

SUBJECT: Discipline, Crime, and Violence Report for School Year 2009-2010

The purpose of this memo is to provide information about final submission of collected data on discipline, crime, and violence in public schools for the 2009-2010 school year. Data submitted will meet the reporting requirements for the following:

- No Child Left Behind Act of 2001 (NCLB)
- Standards of Accreditation safety indicator for the School Report Card
- State crime and violence report as required in Section 22.1-279.3:1 of the *Code of Virginia*
- Federal Individuals with Disabilities Education Improvement Act 2004 (IDEIA) report on suspensions and expulsions of students with disabilities
- Federal Safe and Drug-Free Schools and Communities Act
- Federal Gun-Free Schools Act
- Federal Office of Special Education Programs (OSEP)

Application and Data Submission:

The data collection process remains the same. The data submitted will include the regular 2009-2010 school year, and the data from summer school programs for 2009.

The closing date for submission for the regional centers/programs data is July 15, 2010. The school divisions cannot finalize their DCV data until its regional centers/programs submit their data. The closing date for submission for the school divisions is July 31, 2010. The submission window for the DCV 2010-2011 report will be opened on August 1, 2010.

Additional information related to the data collection process can be downloaded from the Department of Education's website at <http://www.doe.virginia.gov/>. Users can select "Data Collection" on the left side of the homepage, and then select "Student & School Support" on the right side of the page.
