SECTION B: REQUIRED ELEMENTS

Part 1. Student Achievement and Demographic Data - Applicable to Tier I, II, and III Schools

The LEA must provide the following information for each of the Tier I, Tier II, and Tier III school that will be served.
Special Note: An LEA with Tier I schools must serve all of its Tier I schools before serving any eligible Tier III school.

- a. Student achievement data for the past two years (2007-2008 and 2008-2009) in reading/language arts and mathematics: by school for the “all students” category and for each AYP subgroup; and by grade level in the all students category and for each AYP subgroup;
- b. Analyzed student achievement data with identified areas that need improvement;
- c. Number and percentage of highly qualified teachers and teachers with less than three years experience by grade or subject;
- d. Number of years each instructional staff member has been employed at the school;
- e. Information about the graduation rate of the school in the aggregate and by AYP subgroup for all secondary schools;
- f. Information about the demographics of the student population to include attendance rate, total number of students, and totals by the following categories: 1) gender; 2) race or ethnicity; 3) disability status; 4) limited English proficient status; 5) migrant status; 6) homeless status; and 7) economically disadvantaged status;
- g. Information about the physical plant of the school facility to include: 1) date built; 2) number of classrooms; 3) description of the library media center; 4) description of cafeteria; and 5) description of areas for physical education and/or recess;
- h. Total number of minutes in the school year that all students were required to attend school and any increased learning time (e.g., before- or after-school, Saturday school, summer school);
- i. Total number of days teachers worked divided by the maximum number of teacher working days;
- j. Information about the types of technology that are available to students and instructional staff;
- k. Annual goals for student achievement on the state’s assessments in both reading/language arts and mathematics that it has established in order to monitor its Tier I and Tier II schools that received school improvement funds and services that the Tier III, category 1 school will receive or the activities the school will implement; and
- l. Goals it has established (subject to approval by the SEA) in order to hold accountable its Tier III schools implementing the State Transformation Model.

Response:

Note: Divisions should consider providing this information in chart form, and include here.

Part 2. Design and Implement the Intervention for Each School - Applicable to Tier I, II, and III Schools

The LEA will need to have detailed plans in place to demonstrate how the interventions will be designed as well as the plan for implementation. Listed below are the factors that will be considered to assess the LEA's commitment to designing interventions consistent with the factors below from the USED Final Requirements for School Improvement Grants as amended January 2010.

Describe the following:

- The LEA has a plan in place to implement the intervention by the beginning of the 2010-2011 school year.
- The LEA has plans to regularly engage the school community to inform them of progress toward the design and implementation of the interventions and to give them opportunity to provide input.
- The LEA has adequate resources to research and design the selected intervention as intended.
- The LEA has set aside time and resources sufficient to facilitate the design and ongoing implementation of interventions.
- The LEA, with Tier I and Tier II schools, has attended the SEA sponsored strategic planning session on April 7, 2010, conducted by Dr. Lauren Morando Rhim representing the Center for Innovation and Improvement.
- The LEA has demonstrated adequate capacity to implement the selected intervention models.

Response:

1. The LEA has a plan in place to implement the intervention by the beginning of the 2010-2011 school year.
 - ❖ Working with School Improvement Coach to continue to work with K-3 grade levels on curriculum alignment in reading
 - The Coach will support the administrative team in the implementation of the following:
 - Attend grade level meetings monthly to review the curriculum pacing and guides
 - Review lesson plans to determine if the pacing is appropriate.
 - Review the "check sheets" to determine if pacing is appropriate.
 - Observe in the classroom to determine if the lessons are aligned with the pacing.
 - Observations will begin with a review of the lesson plan prior to seeing the classroom teacher.
 - Share observations with grade levels and/or at faculty meetings.
 - Monthly meetings to share Power Point with review for staff
 - Address specific areas with principal and staff as necessary
 - ❖ Begin to work with K-3 grade levels on curriculum alignment in math.
 - Emphasis on the third grade.
 - Assist in utilizing the documents provided by the VDOE
 - Enhanced Scope and Sequence.
 - ❖ Begin to work with Pre-K with pacing guides and curriculum alignment in reading.
 - ❖ Assist teams in the use of formative and summative assessment.

- Review benchmark scores with teams.
 - Assist in reviewing curriculum guides and pacing for remediation and planning purposes.
 - Assist teams in how to use the data to make instructional decisions.
 - Assist the principal in reviewing benchmark assessments to determine if the tests are “vetted” to align with actual SOL tests.
 - ❖ Support Principal and the Reading Specialist with the Word Study intuitive
 - ❖ Assessment
 - ❖ Creation of materials for curriculum alignment and pacing.
 - Assist teachers in utilizing the documents that were created during the 2009-2010 school year.
 - Pacing check-off sheets
 - Curriculum maps
 - Curriculum pacing guides
 - ❖ Working with Reading Specialist to implement Guided Reading and Words Their Way
 The University of Virginia will offer a class at Lancaster Primary School to train the staff with using Words Their Way program. There will be a three-credit, college level class in the fall, followed by a coaching model provided under the guidance of UVA to support the implementation of this model.
 - ❖ Training provided by Virginia Department of Education.
 The administrative team will attend all trainings and webinars that are required as part of the school improvement process.
2. The LEA has plans to regularly engage the school community to inform them of progress toward the design and implementation of the interventions and to give them opportunity to provide input.
 - ❖ Monthly Leadership Team meetings to review school improvement process and additional professional development with Words Their Way.
 3. The LEA has adequate resources to research and design the selected intervention as intended.
 - The Words Their Way classes are being conducted by the University of Virginia.
 4. The LEA has set aside time and resources sufficient to facilitate the design and ongoing implementation of interventions.
 - The master schedule for the school will reflect the sufficient time needed for teachers to attend the training. All resources and professional development is funded through the School Improvement 1003g Grant and the Title I, Part A grant, which are sufficient resources to facilitate the design and ongoing implementation of the interventions.
 5. The LEA, with Tier I and Tier II schools, has attended the SEA sponsored strategic planning session on April 7, 2010, conducted by Dr. Lauren Morando Rhim representing the Center for Innovation and Improvement. N/A

6. The LEA has demonstrated adequate capacity to implement the selected intervention models.
- ❖ Funds are available for professional dev. The Title I coordinator and principal have met with the University to design the training

- If the LEA lacks sufficient capacity to serve all of its Tier I schools provide the following information:
 - a. What steps have been taken to secure the support of the local school board for the reform model selected?
 - b. What steps have been taken to secure the support of the parents for the reform model selected?
 - c. If the LEA does not have sufficient staff to implement the selected reform model fully and effectively, has the LEA considered use of the School Improvement Grant funds to hire necessary staff?
 - d. What steps have been taken to secure assistance from the state or other entity in determining how to ensure sufficient capacity exists to implement the model?
 - e. Has the SEA provided other technical assistance through a Memorandum of Understanding?

Response: (To divisions with only Tier III schools, this response is NA)

N/A Mark NA, if applicable

Part 3. Recruit, Screen, and Select External Providers - **Applicable to Tier I and II Schools Tier III Schools Omit**

To assist school divisions with recruiting, screening, and selecting external providers, if applicable, the Virginia Department of Education (VDOE) conducted a Request for Proposals for Lead Turnaround Partners (LTPs). Awarded were four independent contractors: Cambridge Education; Edison Learning, Inc; John Hopkins University; and Pearson Education. School divisions may select a LTP from the competitively awarded contract list or they may choose to initiate their own competitive process. The benefit of selecting a provider from the VDOE contract list is that the competition has already taken place and a school division will not have to delay the implementation of the work with the LTP by awaiting results from its own competitive process. Specific information such as contract number and pricing about each awarded contractor is publically posted on the VDOE Web site. This link <https://vendor.epro.cgipdc.com/webapp/VSSAPPX/Advantage> provides the background information regarding the selection of the LTPs.

Below are the factors that will be considered to assess the LEA's commitment to recruit, screen, and select external providers, if applicable, consistent with the USED Final Requirements for School Improvement Grants as amended in January 2010. Describe the following:

- Reasonable and timely steps taken to recruit, screen, and select providers to be in place by the beginning of the 2010-2011 school year that may include, but are not limited to:
 - Analyzing the LEA's operational needs;

- Researching and prioritizing the external providers available to serve the school;
- Contacting other LEA's currently or formerly engaged with the external provider regarding their experience;
- Engaging parents and community members to assist in the selection process; and
- Delineating the responsibilities and expectations to be carried out by the external provider as well as those to be carried out by the LEA.

_____ Mark NA here if the LEA selected a LTP from the state's list.
 _____ Mark NA here if the selected model does not require a LTP.

- Detailed and relevant criteria for selecting external providers that take into account the specific needs of the Tier I and/or Tier II schools to be served by external providers. These criteria may include, but are not limited to:
 - A proven track record of success in working with a particular population or type of school;
 - Alignment between external provider services and needs of the LEA;
 - Capacity to and documented success in improving student achievement; and
 - Capacity to serve the identified school or schools with the selected intervention model.

_____ Mark NA here if the LEA selected a LTP from the state's list.
 _____ Mark NA here if the selected model does not require a LTP.

Part 4: Modify Practices and/or Policies, If Necessary, to Enable Implementation of the Intervention Fully and Effectively- Applicable to Tier I, II, and III Schools

The LEA will provide evidence that a review of division and school policies have been completed to ensure alignment with the selected interventions. Evidence will include copies of division meeting agenda and accompanying notes. If changes are needed to existing policies and/or procedures, additional documentation will be requested such as revisions to policy manuals, local board of education meeting minutes, and/or other appropriate division communication.

Response: **(Note: Documents included as attachments must be scanned and attached to this application.)**

The interventions that are being used does not necessitate the change in existing division and school policies.

Part 5. Sustain the Reform Effort After the Funding Period Ends - Applicable to Tier I, II, and III Schools

The LEA will provide a narrative identifying resources, financial and otherwise, to demonstrate how the reform effort will be sustained after the funding period ends. The LEA's ability to sustain the reform effort after the funding period ends will be evaluated by considering the following.

Describe the following:

- Use of the Indistar™ tool by the division and school improvement teams to inform, coach, sustain, track, and report school improvement activities;
- Implementation of contract with external provider, if applicable; and
- Division plan and budget for sustaining the reform effort.

Response:

- **Use of the Indistar™ tool by the division and school improvement teams to inform, coach, sustain, track, and report school improvement activities:** The school improvement team will continue to use the Indistar tool after the funding period is over.
- **Implementation of contract with external provider, if applicable:** If necessary, a contract will be implemented with an external provider. Presently, a plan is being implemented to train present staff to serve as present and future local trainers for the school.
- **Division plan and budget for sustaining the reform effort:** The division plan and budget plan is to use funds provided by Title I, Part A; Title II, Part A; and Title VI, Part B, Subpart 2 (Rural) funds to sustain the division and school's reform effort.

SECTION C: SELECTION OF COACH FOR TIER III SCHOOLS: STATE TRANSFORMATION MODEL - Tier III Schools Only

The State Transformation Model requires schools to use funding to hire a coach that will work with the school in the area(s) that caused the school to enter school improvement. **Coaches must be employed by June 28, 2010, the last day to register for the summer institute.** Responsibilities of a coach may include, but are not limited to the following:

Assisting the School Improvement Team in:

- Using appropriate data to:
 - drive decision-making in developing, selecting, and evaluating instructional programs and practices
 - select appropriate strategies to individualize classroom instruction
 - establish goals for all students with a focus on subgroup performance
- Developing and evaluating a highly effective school improvement plan via online planning
- Protecting instructional time
- Monitoring student progress and sharing findings
- Promoting a collegial relationship between school administrators, staff, and coach

In the box below, please respond to the following questions:

Describe the process that was used or will be used to select each school's Tier III coach. (Use as much space as needed.)

The division checked experience in area of reading, checked educational credentials, checked with schools that coach has worked with in reference to school improvement success.

Check the expertise of the coach or prospective coach. Check all that apply.

SECTION D: BUDGET - Applicable to Tier I, II, and III Schools

Part 1. Budget Summary (one for the division and one for each school). Description of expenditure codes can be found at the end of Section C. 1003(g) and 1003(a) funding may be expended on any Condition of Award. See Attachment C-g. 1003(g) and 1003(a) funds may also be expended for the purchase of educational vendor/company services to support the implementation of the selected reform model. See Attachment D-g.

Note: Part 2: Budget Narrative: The detailed budget summary the LEA submits as part of the grant application will provide evidence of how other sources such as Title II, Part A; Title II, Part D; Title III, Part A; Title VI, Part B; state and/or local resources support 1003(g) initiatives. Additionally, the LEA will provide a budget narrative in its application that will provide a description of how other resources will be used such as personnel, materials, and services to support the selected intervention model.

These accounts are for budgeting and recording expenditures of the educational agency for activities under its control. Below are definitions of the major expenditure categories. The descriptions provided are examples only. For further clarification on the proper expenditures of funds, contact your school division budget or finance office, the grant specialist in the Virginia Department of Education, or refer to the appropriate federal act.

Expenditure Code Definitions

1000 Personal Services - **All compensation for the direct labor of persons in the employment of the local government. Salaries and wages paid to employees for full- and part-time work, including overtime, shift differential, and similar compensation. Also includes payments for time not worked, including sick leave, vacation, holidays, and other paid absences (jury duty, military pay, etc.), which are earned during the reporting period.**

2000 Employee Benefits - Job related benefits provided employees are part of their total compensation. Fringe benefits include the employer's portion of FICA, pensions, insurance (life, health, disability income, etc.), and employee allowances.

3000 Purchased Services - Services acquired from outside sources (i.e., private vendors, other governmental entities). Purchase of the service is on a fee basis or fixed time contract basis. Payments for rentals and utilities are not included in this account description.

4000 Internal Services - Charges from an Internal Service Fund to other functions/activities/elements of the local government for the use of intragovernmental services, such as data processing, automotive/motor pool, central purchasing/central stores, print shop, and risk management.

5000 Other Charges - Includes expenditures that support the program, including utilities (maintenance and operation of plant), staff/administrative/consultant travel, travel (staff/administration), office phone charges, training, leases/rental, Indirect Cost, and other.

6000 Materials and Supplies - Includes articles and commodities that are consumed or materially altered when used and minor equipment that is not capitalized. This includes any equipment purchased under \$5,000, unless the LEA has set a lower capitalization threshold. Therefore, computer equipment under \$5,000 would be reported in “materials and supplies.”

8000 Equipment/Capital Outlay - Outlays that result in the acquisition of or additions to capitalized assets. Capital Outlay does not include the purchase of equipment costing less than \$5,000 unless the LEA has set a lower capitalization threshold.

Section E: Assurances

The LEA must assure that it will—

- (1) Use its School Improvement Grant to implement fully and effectively an intervention in each Tier I and Tier II school that the LEA commits to serve consistent with the final requirements;
- (2) Establish annual goals for student achievement on the State’s assessments in both reading/language arts and mathematics and measure progress on the leading indicators in Section B of this application to monitor each Tier I and Tier II school that it serves with school improvement funds, and establish goals (approved by the SEA) to hold accountable its Tier III schools that receive school improvement funds;
- (3) If it implements a restart model in a Tier I or Tier II school, include in its contract or agreement terms and provisions to hold the charter operator, charter management organization, or education management organization accountable for complying with the final requirements; and
- (4) Report to the SEA the school-level data required under the final requirements of this SIG grant.

Section F: Waivers **(FOR SCHOOLS ALLOCATED 1003g FUNDS)**

The LEA identifies the waiver that it will implement for each school. Not all waivers are applicable for each school; if the waiver is applicable, please identify the school that will implement the waiver.

- A waiver from Section 421(b) of the General Education Provisions Act (20 U.S.C.§1225(b)) to extend the period of availability of school improvement funds for the state and all of its local school divisions to September 30, 2013.

The Reform Models

As stipulated in the USED Final Requirements for School Improvement Grants as amended January 2010, the requirements for each of the four USED required models are provided below. Information on the State Turnaround Model is also provided for your information. **The USED reform models are for Tier I and Tier II schools only.**

1. Turnaround Model

A turnaround model is one in which a LEA must:

- Replace the principal and grant the principal sufficient operational flexibility (including in staffing, calendars/time, and budgeting) to implement fully a comprehensive approach in order to substantially improve student achievement outcomes and increase high school graduation rates;
- Use locally adopted competencies to measure the effectiveness of staff who can work within the turnaround environment to meet the needs of students, screen all existing staff and rehire no more than 50 percent, and select new staff;
- Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in the turnaround school;
- Provide staff ongoing, high-quality, job-embedded professional development that is aligned with the school's comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies;
- Adopt a new governance structure, which may include, but is not limited to, requiring the school to report to a new "turnaround office" in the LEA or SEA, hire a "turnaround leader" who reports directly to the superintendent or chief academic officer, or enter into a multi-year contract with the LEA or SEA to obtain added flexibility in exchange for greater accountability;
- Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with state academic standards;
- Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students;
- Establish schedules and implement strategies that provide increased learning time (as defined in this notice); and
- Provide appropriate social-emotional and community-oriented services and supports for students.

A turnaround model may also implement other strategies such as the following:

- Any of the required and permissible activities under the transformation model; or
- A new school model (e.g., themed, dual language academy).

2. Restart Model

A restart model is one in which an LEA converts a school or closes and reopens a school under a charter school operator, a charter management organization (CMO), or an education management organization (EMO) that has been selected through a rigorous review process. (A CMO is a nonprofit organization that operates or manages charter schools by centralizing or sharing certain functions and resources among schools. An EMO is a for-profit or nonprofit organization that provides "whole-school operation")

services to an LEA.) A restart model must enroll, within the grades it serves, any former student who wishes to attend the school.

3. School Closure Model

School closure occurs when an LEA closes a school and enrolls the students who attended that school in other schools in the LEA that are higher achieving. These other schools should be within reasonable proximity to the closed school and may include, but are not limited to, charter schools or new schools for which achievement data are not yet available.

4. Transformation Model

A transformation model is one in which an LEA must implement each of the following strategies:

- Developing and increasing teacher and school leader effectiveness. *Required activities* for the LEA:
 - Replace the principal who led the school prior to commencement of the transformation model;
 - Use rigorous, transparent, and equitable evaluation systems for teachers and principals that—
 - take into account data on student growth (as defined in this notice) as a significant factor as well as other factors such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduations rates; and
 - are designed and developed with teacher and principal involvement;
 - Identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and high school graduation rates and identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so;
 - Provide staff ongoing, high-quality, job-embedded professional development (e.g., regarding subject-specific pedagogy, instruction that reflects a deeper understanding of the community served by the school, or differentiated instruction) that is aligned with the school's comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies; and
 - Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a transformation school.

An LEA may also implement other strategies to develop teachers' and school leaders' effectiveness. *Permissible activities* such as the following are allowed:

- Providing additional compensation to attract and retain staff with the skills necessary to meet the needs of the students in a transformation school;
- Instituting a system for measuring changes in instructional practices resulting from professional development; or
- Ensuring that the school is not required to accept a teacher without the mutual consent of the teacher and principal, regardless of the teacher's seniority.

An LEA's comprehensive instructional reform strategies must include the following *required activities*.

- Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards; and
- Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students.

An LEA may also implement comprehensive instructional reform strategies as *permissible activities*, such as the following:

- Conducting periodic reviews to ensure that the curriculum is being implemented with fidelity, is having the intended impact on student achievement, and is modified if ineffective;
- Implementing a schoolwide “response-to-intervention” model;
- Providing additional supports and professional development to teachers and principals in order to implement effective strategies to support students with disabilities in the least restrictive environment and to ensure that limited English proficient students acquire language skills to master academic content;
- Using and integrating technology-based supports and interventions as part of the instructional program; and
- In secondary schools--
 - Increasing rigor by offering opportunities for students to enroll in advanced coursework (such as Advanced Placement; International Baccalaureate; or science, technology, engineering, and mathematics courses, especially those that incorporate rigorous and relevant project-, inquiry-, or design-based contextual learning opportunities), early-college high schools, dual enrollment programs, or thematic learning academies that prepare students for college and careers, including by providing appropriate supports designed to ensure that low-achieving students can take advantage of these programs and coursework;
 - Improving student transition from middle to high school through summer transition programs or freshman academies;
 - Increasing graduation rates through, for example, credit-recovery programs, re-engagement strategies, smaller learning communities, competency-based instruction and performance-based assessments, and acceleration of basic reading and mathematics skills; or
 - Establishing early-warning systems to identify students who may be at risk of failing to achieve to high standards or graduate.

An LEA must increase learning time and create community-oriented schools by the following *required activities*:

- Establish schedules and strategies that provide increased learning time (as defined in this notice); and
- Provide ongoing mechanisms for family and community engagement.

An LEA may also implement *permissible activities* including other strategies that extend learning time and create community-oriented schools, such as the following:

- Partnering with parents and parent organizations, faith- and community-based organizations, health clinics, other State or local agencies, and others to create safe school environments that meet students’ social, emotional, and health needs;
- Extending or restructuring the school day so as to add time for such strategies as advisory periods that build relationships between students, faculty, and other school staff;
- Implementing approaches to improve school climate and discipline, such as implementing a system of positive behavioral supports or taking steps to eliminate bullying and student harassment; or
- Expanding the school program to offer full-day kindergarten or pre-kindergarten.

An LEA must provide operational flexibility and sustained support through the following *required activities*:

- Give the school sufficient operational flexibility (such as staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; and
- Ensure that the school receives ongoing, intensive technical assistance and related support from the LEA, the SEA, or a designated external lead partner organization (such as a school turnaround organization or an EMO).

The LEA may also implement other strategies for providing operational flexibility and intensive support, through *permissible activities* such as the following:

- Allowing the school to be run under a new governance arrangement, such as a turnaround division within the LEA or SEA; or
- Implementing a per-pupil school-based budget formula that is weighted based on student needs.

5. State Transformation Model (Tier III Only)

The State Transformation Model requires schools to use funding to hire a coach that will work with the school in the area(s) that caused the school to enter school improvement. The requirements for the state transformation model are listed below.

An LEA will develop and increase teacher and school leader effectiveness by:

- Using data on student growth through formative assessment as a significant factor in evaluating teachers;
- Provide staff ongoing, high-quality, job-embedded professional development through a coaching model (e.g., regarding subject-specific pedagogy, instruction that reflects a deeper understanding of the community served by the school, or differentiated instruction) that is aligned with the school's comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies; and
- Establishing schedules and strategies that provide increased collaborative time including extended year and extended school day programs.

An LEA will use comprehensive instructional reform strategies by:

- Using data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards;
- Using data on student growth through formative assessment as a significant factor in monitoring student achievement and growth;
- Promoting the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students;
- Conducting periodic reviews to ensure that the curriculum is being implemented with fidelity, is having the intended impact on student achievement, and is modified if ineffective;
- Providing additional supports and professional development to teachers and principals in order to implement effective strategies to support students with disabilities in the least restrictive environment and to ensure that limited English proficient students acquire language skills to master academic content;
- Using and integrating technology-based supports and interventions as part of the instructional program;
- Establishing early-warning systems to identify students who may be at risk of failing to achieve to high standards or graduate; and
- Using transition programs to support students moving vertically through the curriculum and from elementary to secondary programs.

- An LEA will increase learning time and creating community-oriented schools by:
- Establishing schedules and strategies that provide increased learning time including extended year and extended school day programs;
 - Provide ongoing mechanisms for family and community engagement;
 - Extending or restructuring the school day so as to add time for such strategies; and
 - Implementing approaches to improve school climate and discipline, such as implementing a system of positive behavioral supports or taking steps to eliminate bullying and student harassment.

- An LEA will provide operational flexibility and sustained support by:
- Ensuring that the school receives ongoing, intensive technical assistance and related support from the LEA, the SEA, or a designated state assigned coach, and
 - Requiring alternative governance to support the school improvement planning team with oversight by the LEA and outside partners such as a university or state assigned coach.
