1to1 Action Plan

Goal

To define your vision for and articulate the rationale behind your school's 1-to-1 program.

Call to Action

Revisit your school's philosophy statement to articulate how your 1-to-1 program will enhance your educational mission. What educational goals do you have for your students? Imagine how students' learning environments might shift, the skills and competencies you want them to develop, and the impact your 1-to-1 program might have on your school climate.

2.

Ideally, our 1-to-1 program will …

3.

4.

☐ **Survey**

Survey the landscape. Assess your school's infrastructure, from the wiring to the personnel. Get a sense of your strengths and weaknesses from the get-go.

Resources: **Tech Readiness Rubric** | **Online Compass**

☐ **Discuss**

Discuss how a 1-to-1 program will augment students' learning, rather than supplement aspects of teaching. What are the issues? How can technology support your school's educational philosophy?

Resources: **Teacher Backgrounders** | **PD Conversation Starters**

☐ **Outline**

Outline and rationalize your 1-to-1 program clearly. Articulate and address expectations for acceptable use and responsible behavior. Be proactive rather than reactive, and define the "why?" behind bringing technology into the classroom.

Resources: **Common Sense on AUPs** | **Acronyms 101**

☐ **Identify**

Identify your lead teachers. Think of these faculty and staff members as your "pioneers" — the ones who will help drive your program, whether by modeling creative teaching practices or by acting as liaisons between classroom teachers and your tech department.
