

**Virginia Standards of Learning Assessments
Grade 7 Mathematics Performance Level Descriptors
Brief**

| Performance Level | Descriptor |
|-------------------------|--|
| Pass/Advanced | The student demonstrates exceptional and consistent attainment of the knowledge and skills necessary to solve problems using probability, proportions, one-step equations, inequalities and rational number computations; display and interpret data; identify similar geometric figures; and graph ordered pairs. |
| Pass/Proficient | The student demonstrates satisfactory attainment of the knowledge and skills necessary to solve problems using probability, proportions, one-step equations, inequalities and rational number computations; display and interpret data; identify similar geometric figures; and graph ordered pairs. |
| Fail/Basic | The student demonstrates inconsistent attainment of the fundamental knowledge and skills necessary to solve problems using probability, proportions, one-step equations, inequalities and rational number computations; display and interpret data; identify similar geometric figures; and graph ordered pairs. |
| Fail/Below Basic | The student demonstrates little if any attainment of the knowledge and skills necessary to solve problems using probability, proportions, one-step equations, inequalities and rational number computations; display and interpret data; identify similar geometric figures; and graph ordered pairs. |
