For Mary’s birthday, her aunt gave her a ring that was more than 100 years old. “Take good care of it,” her aunt warned. She did just that until one day Mary looked down at her hand and noticed the ring was gone.

“Aunt Jackie is going to be so disappointed in me,” thought Mary. Then Mary remembered she put the ring in her pocket when she washed her hands at the sink. “Thank goodness!” Mary said to herself. After that, she never took off Aunt Jackie’s ring again.

This story is mostly about —

A. a normal day
B. Mary’s aunt
C. a special ring
D. Mary’s birthday

A Job for Maria

1. Maria stared through the window at the book on display and sighed. It cost more money than she had, and Mom said she would have to earn the money herself to buy such an expensive book. Walking quickly, she set off to find a job around the neighborhood. It couldn’t be that hard, could it?

2. It could! Her first thought was to mow lawns. Everyone she asked told her, “Sorry, but Marcus Jones mows our lawn.”

3. Her next idea was babysitting. Her mother reminded her that a fourth-grader would probably not be able to get a job babysitting. Most parents asked a high school girl in their neighborhood to care for their children.

4. Disappointed but still determined, Maria next thought about collecting cans for recycling. Unfortunately for Maria, the local Girl Scout troop already collected cans in the neighborhood every week.

5. Maria sat at the kitchen table with her chin in her hands. Her mom came in and asked, “How’s the job hunt going?”

6. Maria sighed and said, “Not good—there’s nothing left for me to do.”

7. Her mom smiled as she explained, “Well, I have an idea. You know Ms. Branson down the street?”
Maria nodded slowly. Everyone knew Ms. Branson. She lived alone with her dogs. Kids said she was at least one hundred years old and that she yelled at anyone knocking on her door. Even the Girl Scouts didn’t ask her for cans.

Mom continued, “Well, she’s broken her hip and can’t walk much. She has a nurse stay with her during the day, but she needs someone to walk her dogs in the morning and again in the evening. I know you like animals. I told her you might be interested in the job.”

Maria didn’t just like dogs, she adored dogs, but walking into Ms. Branson’s house would be scary. She wanted a job, but could she work for a person like Ms. Branson? Her mom sensed she was uneasy and added, “I’ll come with you the first time.”

Feeling relieved that her mom was coming, Maria agreed to give it a try. That evening, Ms. Branson didn’t yell once. In fact, she had a plate of cookies set out for her! Ms. Branson’s dogs were well-behaved and excited to see Maria.

Maria took the dogs for their first walk. When Maria brought the dogs back, they licked her cheeks. She laughed and knew she had finally found the right job.

A hundred years ago, harmful insects were killing fruit trees in California. The farmers tried to get rid of the pests, but nothing seemed to work. They were ready to give up when a scientist visiting Australia noticed that ladybugs ate damaging bugs. The scientist sent the farmers a few hundred ladybugs. The ladybugs ate all the pests. The farmers’ lime, orange, and peach trees were saved.

Farmers still use ladybugs today to help guard their crops from being eaten by harmful insects. A ladybug has a very big appetite. One ladybug can eat five thousand pests during its lifetime.

A ladybug begins as a tiny egg. A mother ladybug can lay about one thousand eggs under a leaf. When the eggs hatch, the larvae are thin and bumpy. They are black with red spots. A larva spends most of its time eating. Before long, the growing larva finds a quiet spot. Its skin becomes dry and hard, protecting it like a cocoon, in the pupa stage.

In the pupa, the larva changes from a thin, bumpy insect to a round one with wings and a bright-colored shell. Many ladybugs are red, although some are orange, yellow, or pink. Most ladybugs have spots. Some can have stripes, while others may have no spots or stripes!

The ladybug’s bright color also helps it survive. When birds see these bright red bugs, they stay away because they know ladybugs taste bad. Ladybugs know another survival trick too. If a snake passes by, a ladybug will roll over onto its back. It pretends to be dead!

In the fall, ladybugs crawl under leaves to hibernate. Sometimes large groups of ladybugs gather together. They sleep through the winter.

In the spring, the hungry ladybugs wake up. They fly away to hunt for harmful bugs. Ladybugs fly to our rescue again!
9 Another word for **damaging** as it is used in paragraph 1 is —

A  difficult  
B  harmful  
C  hunting  
D  surviving

10 Which question does paragraph 6 answer?

F  In which month do ladybugs wake up?  
G  What colors can ladybugs be?  
H  When do ladybugs sleep a long time?  
J  How many eggs does a ladybug lay?

11 Which question is answered under the heading “Survival Tricks”?  

A  Do all ladybugs have red shells with black spots?  
B  Why will birds not eat ladybugs?  
C  How many pests can a ladybug eat?

Lost and Found

1. Becky’s family was having a barn raising. Neighbors from all over had come to help her father build a new barn. Even the children had jobs to do. Becky’s job was bringing drinking water from the stream to the workers. “Now, mind the ladle, Becky,” Papa told her as he gave her the long-handed cup for dipping. “It is the only one we have.”

2. All morning Becky had carried the heavy bucket back and forth to the stream. Now she stood in the tall grass on the hill behind the barn. It was almost noon, and the sun was hot. She wanted to feel cool air rush against her face. She gripped the empty bucket and gathered her skirt. She heard the ladle rattle as she dashed down the hill.

3. Becky laughed with delight as she reached the stream and started to fill the bucket. Suddenly she stopped. The ladle was gone! She searched nearby but with no luck. Becky sighed with despair and thought of Papa’s words. He would have to go to town in the wagon to buy a new ladle. Worst of all, there was no ladle to serve water to dozens of thirsty workers.

4. Then Becky remembered how the ladle clattered in the bucket as she ran. It must have fallen out. She gave the hill a hopeful look, but then her shoulders drooped. She would never find anything in the thick grass that grew there. Then she had an idea . . .

5. She found some of her friends setting the table for the afternoon meal. “I need you!” she told them. More friends were helping workers at the barn. They came running when Becky called them.

6. Becky explained what happened. “I need you to help me find the ladle,” she said.
Becky and her friends stood side by side and formed a long line. Slowly they walked down the hill to the stream. They paced through the tall grass, stepping carefully as they searched the ground around them. Suddenly a boy hit something metal with his toe. “I found it!” he cried. He grinned and held up the missing ladle.

“Thank you!” Becky smiled. “We did it together!” She took the ladle and washed it off in the stream.

When the children returned, the men were using long, wooden poles to raise the walls of the barn.

Becky carried the bucket over to them. “Water, anyone?” she asked. Carefully she raised her arm and lifted the ladle up to the workers.

Pieter Bruegel was a famous artist who lived in Europe five hundred years ago. He is well known for a painting called *Children’s Games*. People like this painting because it is bursting with fun. It shows how children in Pieter’s time amused themselves in a variety of ways. In all, there are about eighty games being played in the painting.

*Children’s Games* shows a busy street scene in a town long ago. There is a stream flowing around the edge of the town, and the street is a wide and open space. There are no cars, just horses and buggies, so there is plenty of room to play. There are about two hundred children in the painting. Some play in groups and others play alone. Many of the games in the painting date back to ancient times, and some of the games are still played today.

Children may know games like leapfrog, tug of war, and follow the leader, but what about tag, king of the hill, and hopscotch? These games are often played outdoors. Stop and think about the happy children in the painting. They seem to be enjoying their freedom in the fresh air and their games.
The games in the painting do not require children to spend money on extra materials. Instead, they use simple everyday objects like hats and sticks. A game might call for a hoop, a rope, a spinning top, some chalk, or even a barrel. Some games are played without any toys at all. For instance, one scene in the painting shows children turning somersaults inside the fence.

Even though Pieter Bruegel lived a long time ago, children today can learn an important lesson from what he painted. The painting shows us how little we need in order to enjoy ourselves. All children really need is one another. It’s not the toys or games that are found on store shelves that create fun. Using our imagination can do this for us.

27 The author included paragraph 1 to describe the —

A games that people once played  
B person who painted the picture  
C jobs that people had in towns  
D river that once flowed through towns

28 Which question does paragraph 1 answer?
