# Introduction

The *English Enhanced Scope and Sequence Sample Lesson Plans* is a resource intended to help teachers align their classroom instruction with the 2010 *English Standards of Learning* (SOL). The Enhanced Scope and Sequence is organized by the strands established in the English Standards of Learning. This resource includes the content of the Standards of Learning and the essential understandings, knowledge, and skills found in the 2010 *English Standards of Learning Curriculum Framework*.

The development of the *English Enhanced Scope and Sequence Sample Lesson Plans* was a joint effort between the Office of Standards, Curriculum, and Instruction, the Office of Special Education and Instructional Services, and the Office of Program Administration and Accountability. English Language Arts writers and editors were teamed with special educators and teachers of English Language Learners (ELL) to provide strategies for differentiation that will assist in meeting the learning needs of all students.

The *English Enhanced Scope and Sequence Sample Lesson Plans* are posted by SOL strand and grade band featuring a drop-down menu with the titles of each of the lessons. The sample lessons are skill-based and may be used with any text.

School divisions and teachers can use the *English Enhanced Scope and Sequence Sample Lesson Plans* as a resource for developing sound curricular and instructional programs. These materials are intended as examples of ways the understandings, knowledge, and skills might be presented to students in sample lessons that have been aligned with the 2010 *English Standards of Learning*. Teachers who use the Enhanced Scope and Sequence should correlate available instructional resources with the essential understandings, knowledge, and skills to determine an appropriate pace of instruction. This resource is not a complete curriculum and is neither required nor prescriptive, but it can be a valuable instructional tool. The Enhanced Scope and Sequence also includes strategies for differentiation to meet the needs of all students.
