Student Data Upload (SDU) File Requirements Summer 2010 Writing and Non-Writing Test Administrations

Introduction

The main purpose of this document is to identify and define the data fields included in a student assessment record for the Summer 2010 Writing and Non-Writing Test Administrations. School divisions have the option to a) electronically upload their student assessment records as a *Student Data Upload* (SDU) file into the PearsonAccess web-based system via a process called *Student Data File Submission* or b) manually code their student assessment records in PearsonAccess by using the various Test Management screens.

School divisions are strongly encouraged to use the electronic *Student Data File Submission* process to help eliminate manual data entry errors; however, it is not a requirement. Detailed directions regarding how to complete the *Student Data File Submission* process are available in Appendix D of this document.

NEW FOR SUMMER 2010

The following tests are no longer offered*:

- 8001 Grade 8 Reading Cumulative
- 8003 Grade 8 Mathematics Cumulative
- 8038 Grade 8 Plain English Mathematics Cumulative

*Instead, 8065 Grade 8 Reading, 8075 Grade 8 Mathematics, and 8085 Grade 8 Plain English Mathematics should be administered.

On October 19, 2007, the U.S. Department of Education published Final Guidance on the new revised standards for collecting data on race and ethnicity in the Federal Register (72 Fed. Reg. 59267). Effective in the 2010-2011 school year, state educational agencies, local educational agencies, postsecondary institutions, and U.S. Department of Education grantees will be required to use the new race and ethnicity standards. The new race and ethnicity categories allow multicultural individuals to fully recognize their heritage.

The Virginia Department of Education is using "Managing an Identity Crisis: Forum Guide to Implementing New Federal Race and Ethnicity Categories" as a reference for implementation of the new standards in the Commonwealth. This guide was written by the National Forum on Education Statistics and was released in September 2008. It can be viewed or ordered at <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2008802>.

Ethnicity: Hispanic (REQUIRED): This field must contain a Y if the student's ethnicity is Hispanic or an N if the student's ethnicity is not Hispanic.

Race (REQUIRED): This 2 character numeric field should contain a code representing the student's race (leading zeros are required).

Note that race and ethnicity are now two separate fields. The additional field changes the file length of the SDU template. Do not use any previous templates to upload Summer 2010 data.

Change Log

The following table contains a record of changes made to the SDU File Requirements document.

No.	Date	Description
1	10/06/2009	Created Summer 2010 SDU File Requirements
2	03/11/2010	Added Y-Code-A (To indicate a test administered under Remediation Recovery is also a Retest.)

Preparing a Student Data Upload (SDU) File

When preparing an SDU file, the file must be formatted as a comma separated values (CSV) file. The order and length of the data fields and the types of characters in the data fields must follow the descriptions provided in this document, and any header rows must be removed from the file prior to being uploaded. For example, if the *Student Data Upload File Template* (a MS Excel spreadsheet) is used to prepare the SDU file, the header row (row 1) must be deleted and the final version must be saved as a CSV file.

The following naming convention is recommended for an SDU file: CCTYYDDD.csv where CC refers to the administration type (WR=Writing or NW=Non-Writing), TT refers to the test administration (SU=Summer), YY refers to the year (YY=10), and DDD refers to the 3-digit division code. The filename extension must be .csv, and the pathname of the file must not include any periods. For example, C:\D.Smith\WRSU10.csv needs to be C:\DSmith\WRSU10.csv.

Separate SDU files must be created for the different test administrations (e.g. a Summer Writing SDU file and Summer Non-Writing SDU file); however, multiple files may be uploaded for each single administration. For example, divisions may wish to submit files separately by school rather than submitting one large division file. Regardless of the number of schools or students represented in a file, divisions are encouraged to submit SDU files at the division level in PearsonAccess for consistency. If uploading SDU files at levels other than the division level, users must remember to return to each specific level to review individual SDU file status and correct any errors.

Note for Summer 2010 Writing Test Administration SDU Files: Students defined as Term Graduates (attempting to accrue sufficient verified credits to graduate by August 31, 2011) may complete two attempts of the End-of-Course (EOC) Writing test in the Summer 2010 Writing Test Administration. In the SDU file, the assessment records for these students must have a "Y" entered in the Term Grad field. A "Y" in the Term Grad field will result in: a) two Pre-ID labels generated for the student, b) the student's writing short paper automatically appealed or scored a second time, and c) the student's original test assignment automatically duplicated in PearsonAccess to account for the 2nd test attempt. Because a test assignment will automatically be duplicated when a second EOC Writing test with matching demographics is processed, the individual student's record should appear only once in the Summer 2010 Writing SDU file. This is in contrast to the Summer 2010 Non-Writing SDU file.

Note for Summer 2010 Non-Writing Test Administration SDU Files: A student record must be uploaded in the Non-Writing Test Administration SDU file for each SOL test a student will be administered. This could result in multiple records in a file for a student taking more than one SOL test during an administration. For example, an 8th grade student will likely be represented by three records in the Non-Writing Test Administration SDU file. These three records will generate individual test assignments for the Gr. 8 Mathematics, Gr. 8 Reading, and Gr. 8 Science tests for the student. While many fields in the three records will be the same, certain test-specific data fields (e.g. Group Name, Recovery, Online Test or Paper Test, Race, etc.) may vary among the records.

While not all student data fields are required to be entered prior to testing, school divisions are encouraged to include as many fields as possible in the submitted student data file so that manual entry of data is reduced as much as possible.

Field Definitions

1. **Administration (REQUIRED):** This field must contain the code representing the administration for which the student is being registered (e.g., wrsumm10 = Writing Summer 2010 or nwsumm10 = Non-Writing Summer 2010). This field is case sensitive.
2. **Student Last Name (REQUIRED):** This field must contain the student's last name. If the student's last name is longer than 11 characters and/or contains any spaces, accents, or special characters (e.g. - ` ~ ; ; ') , the last name will be revised in the following manner: First, any spaces, accents, and special characters will be removed. Second, if the remaining characters total more than 11, the name will be truncated to 11 characters. For example, Smith-Harvey would result in SMITHHARVEY being uploaded.
3. **Student First Name (REQUIRED):** This field must contain the student's first name. If the student's first name is longer than 9 characters and/or contains any spaces, accents, or special characters (e.g. - ` ~ ; ; ') , the student's first name will be revised in the following manner: First, any spaces, accents, and special characters will be removed. Second, if the remaining characters total more than 9, the first name will be truncated to 9 characters.
4. **Student Middle Initial:** The student's middle initial is not a required field. The limit is 1 character. Valid characters are A-Z or blank. Do not use any spaces, special or accented characters in these fields.
5. **Login ID:** This field may contain a unique 10 character ID for a student to use when logging in to TestNav, the online testing application. If this field is left empty, a unique 10 digit number will be assigned as the Login ID for each student. If the division desires to provide Login IDs, the following conventions must be followed: A limit of 60 characters, no spaces or special characters, and no duplicate Login IDs. Login IDs are not case sensitive.
6. **Division Code (REQUIRED):** This field must contain the three-digit division code that is assigned to your division by the state.
7. **School Code (REQUIRED):** This field must contain the four-digit school code that is assigned to a particular school by the state.
8. **Test Code:** This field should contain a valid test code (See the following tables.) The Test Code represents the level and subject of the test that will be administered to the student. Submit a separate student record for each test administered. For example, if a student is taking Earth Science and Algebra I, that student will need two records, one for Earth Science and a second for Algebra I. If the Test Code field is left blank, a student will be registered for the administration but not assigned to a test and a Pre-ID label will not be generated. Please note these Test Codes do not replace the Subject Codes used in the Student Data Extract files.

9. **Group Name:** This field may contain a teacher name and period number, block number, or other common identifier. The maximum allowable length of this field is 20 characters, and valid characters are A-Z and 0-9. No special characters can be used. To reduce confusion, divisions are strongly encouraged not to leave the field blank and not to duplicate group names. Divisions should consider how they prefer score reports to be organized when selecting group names. For example, if a teacher instructs several sections of Algebra I and it is preferred to generate separate sets of reports for each section, the naming convention may be "Slate Alg I Block 1" and "Slate Alg I Block 2". If it is preferred to generate a set of reports that includes all students in the sections belonging to the teacher, the naming convention could be "Slate Alg I".
10. **Group Code:** This field is an optional field available for use by divisions to further identify or track group information (e.g., course number, section number, period number, or other identifier). The group code will NOT appear on printed reports; however, the value will appear in the Student Data Extract file. The maximum allowable length of this field is 10 characters, and valid characters are A-Z and 0-9. No special characters can be used.

17. **Student Number (Optional):** This field contains a locally assigned student number. Student numbers may be up to 12 digits in length. Leading or trailing zeros are not necessary unless utilized by your division. If this field is used, it must be populated for each test the student is taking.

18. **Title I/Targeted Assistance Services (TAS):** For students attending schools with schoolwide Title I programs, this field should **not** be completed. Otherwise, if the student is receiving Targeted Assistance Services (TAS) under Title I, this field should contain the code representing the subject area(s) in which the student is receiving assistance. The valid codes that may be submitted for this field are as follows:

- 1 - Reading
- 2 - Math
- 3 - Reading & Math
- 4 - Science

For more information, see the school division's Title I Coordinator or the DDOT. If the DDOT has additional questions, please contact the Title I Coordinator at VDOE for your Region as listed at

<http://www.doe.virginia.gov/VDOE/Instruction/title1/index.shtml>

19. **Student Category-Migrant:** This field should contain a Y if the student is classified as Migrant.

Definition: Student Category-Migrant

A child who is, or whose parent or spouse is a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent or spouse in order to obtain, temporary or seasonal employment in agricultural or fishing work—

- another within such division; or
(C) resides in a school division of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity.

Note: If a student is classified as Migrant, the student also should be coded as N-Code/Economically Disadvantaged due to the policy that as of July 1, 2005, students who meet the federal definition of migrant are considered categorically eligible for free or reduced-price meals.

20. Student Category-Homeless: This field should contain a **Y** if the student is classified as Homeless.

Definition: Student Category-Homeless

A child who is homeless and attending any school served by the local school division.

Updating Records via a Student Data Upload (SDU) File

An SDU file may, with some restrictions, be used to electronically update student data fields within PearsonAccess. The restrictions when electronically updating records are as follows:

Student Data Upload (SDU) File Requirements Summer 2010 Writing and Non-Writing Test Administrations

- a) Test Code cannot be updated electronically for an existing test assignment. Re-uploading a student record with a revised Test Code will create a new test assignment and the previous test assignment will remain unchanged.
- b) Group Name cannot be updated electronically for an existing test assignment. Re-uploading a student record with a revised Group Name for an existing test assignment will result in a rejected record with an error message stating a test assignment for that test code already exists. The original test assignment will remain unchanged.
- c) After a test has been processed within PearsonAccess, the test-specific data (e.g., Retest, Recovery, etc.) cannot be updated via an SDU file. The changes must be completed manually within PearsonAccess.

Appendix D: Uploading a Student Data Upload File

Once the student data file has been prepared, the file may be uploaded using the link <http://www.pearsonaccess.com/va/>

After an authorized user is logged on, they will select the Student Data tab.

The screenshot shows the PearsonAccess website interface. At the top, there are navigation links: "Your Account", "Administrative Management", "Support", and "Logout". Below these is a main navigation bar with tabs for "Home", "Student Data", "Test Setup", "Test Management", "Test Scores", and "Test Results". The "Student Data" tab is highlighted with a red circle. The current organization is identified as "Virginia Dept of Education".

The main content area is divided into a sidebar on the left and a main grid on the right. The sidebar contains "Latest News" and "Assessment Dates" for Spring 2009 Writing, Spring 2009 Non-Writing, Summer 2009 Writing, and Summer 2009 Non-Writing. The main grid has five columns:

- Student Data:** Includes links for "Student Data File Submission" (with a sub-link "Send student files to the system"), "Student Data Information", and "Manage EIMS Data".
- Test Setup:** Includes links for "Enter Administration Details", "Participation Counts", and "Order Additional Materials and Tracking".
- Test Management:** Includes links for "Student Registration", "Manage Test Sessions", and "Resolve Student Test Alerts".
- Test Scores:** Includes links for "Manage Scores" and "Manage Scores File Submission".
- Test Results:** Includes links for "On Demand Reports", "Published Reports", "Request Printed Reports", "Request ATP", and "EIMS Reports".

From this screen they will need to select Student Data File Submission. The Student Data File should be submitted at the division level.

This screenshot shows the "Student Data Overview" page. The navigation bar at the top includes "Home", "Student Data", "Test Setup", "Test Management", "Test Scores", and "Test Results". Below the navigation bar, there are sub-tabs: "Overview", "Student Data File Submission", "Student Data Information", and "Manage EIMS Data". The "Student Data File Submission" sub-tab is selected.

The main content area is titled "Student Data Overview" and includes a "Task" section. A red arrow points to the "Student Data File Submission" task, which has the following sub-tasks:

- Send student files to the system
- Check for problems with sent files

Below this task, there are two other sections: "Student Data Information" and "Manage EIMS Data", each with their respective sub-tasks.
