SUPPORTERS' PETITION Church Hill Preparatory Academy

The Church Hill Preparatory Academy, will offer urban males in grades 6-12, for whom a private college preparatory education would be unattainable, the opportunity for a free college and career preparatory education in an interactive charter school learning environment especially designed to mold them into global citizens.

We have amassed a group of community business, education, civic, and youth development leaders to create programming which will expand the students' capacity to learn new things and to develop the higher-level problem solving and critical thinking abilities needed to maximize academic performance, equipping them with a world class tool chest to fulfill their potential. The school's insular environment will be conducive to concentrating resources to combat the challenges of academic engagement, achievement, graduation, matriculation, and life preparedness facing at-risk urban boys.

According to 2010 Schott Foundation data, the graduation rate for black males in Richmond was 40%. Other state and local data on underachievement, disciplinary exclusion from school, special education, unemployment, incarceration rates and poverty for the Commonwealth's black males is a clear and present statement of a crisis in need of a solution.

Our vision is a city and a world in which urban males from low-wealth backgrounds are significantly engaged in our global community, contributing to sustainable development and benefiting from their skills, knowledge, and gifts to their fullest potential. Through high-quality leadership, management, and instruction, we aim to set our students on a clear path to graduation, matriculation, vocation, and global citizenship.

Please join us in this historic effort by signing below. The signatures will be presented with our Charter Application and will remain part of the school's legacy documents.
