*For each line in this category, provide a concrete explanation in the text box (column E) describing how each line item funds will be used and then enter a line-item budget by fiscal year. If this column is left blank, the spending plan will not be approved.

ACPS will address chronic absenteeism across the division as chronic absenteeism rates at each school were above 26.1% in the 2022-2023 school year. While there is a need for more continual support and expansion of division staff to address attendance intervention efforts (e.g. a full-time attendance interventionist position, the funding allocation here does not support the long-term addition of such a position (or positions). Funds will be utilized to support programs to expand student access to school instruction and to allow for additional opportunities for effective communication with students and families regarding their students' attendance standing and the importance of regular school attendance.
