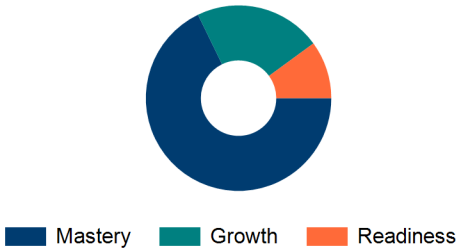
Learn more about the School Quality Profiles

This report helps families, teachers, principals, and community members understand how well their school is performing. It shares student performance in reading, math, and science, along with other important factors that affect school quality, such as student attendance.

## Overall School Performance



**Mastery: 57.2 / 65 pts  Growth: 18.7 / 25 pts  Readiness: 8.4 / 10 pts  Total: 84.4 /100 pts**

*If a school is missing one or more indicators because the number of students in a group was less than 15, then the weight for the missing indicator(s) is reallocated to the other indicators and may increase the component's score above the model weight. **Schools that are federally identified as Targeted or Additional Targeted Support and Improvement (TSI/ATSI) will have their performance category lowered by one level (8VAC20-132-270. F). *** The "<" symbol used in the Indicator tables represents too few students in a group to evaluate.

The School Performance and Support Framework has an overall rating based on points earned in the categories below.

**1. Mastery  2. Growth  3. Readiness**

These factors are weighted and combined to place each school in one of four performance categories:

| Performance Category | Point Range |
|---|---|
| Distinguished | 90–100 |
| On Track | 80–89 |
| Off Track | 65–79 |
| Needs Intensive Support | < 65 |

# Mastery Indicators:

**Reflect how students are meeting academic and English language proficiency standards.**

Factors that make up performance scores include Standards of Learning (SOL) assessments and Virginia Alternative Assessment Program (VAAP) tests in Reading, Mathematics, and Science. English Learner (EL) progress is measured by annual growth on the WIDA ACCESS assessment, which tracks proficiency in listening, speaking, reading, and writing.
